TIME ALLOWED: 60 MINUTES

## INSTRUCTIONS AND INFORMATION

### GENERAL

1. Do not open the booklet until told to do so by your teacher.
2. You may use any teaching aids normally available in your classroom, such as MAB blocks, counters, currency, calculators, play money etc. You are allowed to work on scrap paper and teachers may explain the meaning of words in the paper.
3. Diagrams are NOT drawn to scale. They are intended only as aids.
4. There are 25 multiple-choice questions, each with 5 possible answers given and 5 questions that require a whole number answer between 0 and 999. The questions generally get harder as you work through the paper. There is no penalty for an incorrect response.
5. This is a competition not a test; do not expect to answer all questions. You are only competing against your own year in your own country or Australian state so different years doing the same paper are not compared.
6. Read the instructions on the answer sheet carefully. Ensure your name, school name and school year are entered. It is your responsibility to correctly code your answer sheet.
7. When your teacher gives the signal, begin working on the problems.

### THE ANSWER SHEET

1. Use only lead pencil.
2. Record your answers on the reverse of the answer sheet (not on the question paper) by FULLY colouring the circle matching your answer.
3. Your answer sheet will be scanned. The optical scanner will attempt to read all markings even if they are in the wrong places, so please be careful not to doodle or write anything extra on the answer sheet. If you want to change an answer or remove any marks, use a plastic eraser and be sure to remove all marks and smudges.

### INTEGRITY OF THE COMPETITION

**Collaboration, Communities and Competition** Samuel Dent, Laura Lane, Tony Strike, 2017-08-25 Higher Education providers face enormous challenges in an increasingly competitive and globalised environment It is perhaps obvious to those engaged in teaching and research that academia is both a competitive and a collaborative endeavour Many national systems now assume in their legal or governance frameworks competitive rather than co operative behaviour and increasingly regulate based on that assumption Institutional leaders and educators wrestle with the issues around the commoditisation of learning and the pressure to treat students as customers In tandem students themselves are experiencing cuts in public financing and a transfer of the cost burden to them as the perceived private beneficiaries of a product This book asks whether there is an alternative approach to this now transnational competitive logic

Can collaboration and partnership re emerge as an antidote to the consumerist and competitive approaches taken by governments toward regulating their higher education systems The question of competition collaboration and community is addressed here at three levels of analysis The macro level or the international system level observes competition and collaboration between countries and between institutions The meso level includes competition and collaboration between academics and students and at inter and intra disciplinary levels across organisational boundaries Finally competition and collaboration at the micro level considers the interface between individual academics and between academics and students as learners

Aspiration and Anxiety Christina Ho,2020-06-02 The children of Asian migrants are often perceived to be perfect students ambitious studious and compliant They are remarkably successful routinely outperforming other students in exams dominating selective school intakes and disproportionately winning places at prestigious universities While their hard work and success have been praised their achievements have ignited fierce debates about whether their migrant parents are pushing too hard or whether they ought to be lauded for their commitment to education Critics see a dark side symbolised by the tiger mother who is obsessed with producing overachieving dragon children What is often missing in these debates is an understanding of what drives Asian migrant parents approaches to education This book explores how aspirations for their children s future reinforce their anxieties about being newcomers in an unequal society

*All the Best from the Australian Mathematics Competition* Josephine D. Edwards, Declan J. King, Peter J. O'Halloran, 1986  
Spatial Relations. Volume Two. John Kinsella, 2013. These volumes present John Kinsella's uncollected critical writings and personal reflections from the early 1990s to the present. Included are extended pieces of memoir written in the Western Australian wheatbelt and the Cambridge fens as well as acute essays and commentaries on the nature and genesis of personal and public poetics. Pivotal are a sense of place and how we write out of it, pastoral's relevance to contemporary poetry, how we evaluate and critique post colonial creativity and intrusion into Indigenous spaces and engaged analysis of activism and responsibility in poetry and literary discourse. The author is well known for saying he is preeminently an anarchist, vegan, pacifist, not stock epithets but the *raison d'être* behind his work. The collection moves from overviews of contemporary Australian poetry to studies of such writers as Randolph Stow, Ouyang Yu, Charmaine Papertalk, Green, Lionel Fogarty, Les Murray, Peter Porter, Dorothy Hewett, Judith Wright, Alamgir Hashmi, Patrick Lane, Robert Sullivan, C. K. Stead and J. H. Prynne and on to numerous book reviews of poetry, fiction and non-fiction originally published in newspapers and journals from around the world. There are also searching reflections on visual artists Sidney Nolan, Karl Wiebke, Shaun Atkinson and wide ranging opinion pieces and editorials. In counterpoint are conversations with other writers Rosanna Warren, Rod Mengham, Alvin Pang and Tracy Ryan and explorations of schooling, being struck by lightning, international regionalism, hybridity and experimental poetry. This two volume argosy has been brought together by scholar and editor Gordon Collier who has allowed the original versions to speak with their unique informal formal ductus. Kinsella's interest is in the ethics of space and how we use it. His considerations of the wheatbelt through Wagner and Dante and rewritings of these and in Thoreauvian vein, his place at Jam Tree Gully on the edge of Western Australia's Avon Valley form a web of affirmation and

anxiety it is space he feels both part of and outside embraced in its every magnitude but felt to be stolen land whose restitution needs articulating in literature and in real time Beneath it all is a celebration of the natural world every plant animal rock sentinel peak and grain of sand and a commitment to an ecological poetics More of All the Best from the Australian Mathematics Competition Peter John Taylor, Graham Pollard, Peter Joseph O'Halloran, 1992 *Who's Who in the South and Southwest 2000-2001* Marquis Who's Who, Marquis Who's Who Staff, 2000-11 *Australian mathematics competition. 3. 1992 - 1998* Wj Atkins, 1998-01 *Australian Mathematics Competition* W.
