Shamim Kaiser,Juanying Xie,Vijay Singh Rathore,2025-08-29 This book contains best selected research papers presented at ICTCS 2024 Ninth International Conference on Information and Communication Technology for Competitive Strategies The conference will be held in Jaipur India during 19 21 December 2024 The book covers state of the art as well as emerging topics pertaining to ICT and effective strategies for its implementation for engineering and managerial applications This book contains papers mainly focused on ICT for computation algorithms and data analytics and IT security The work is presented in ten volumes *Manage Your Smart Home With An App!* Gerard O'Driscoll,2014-08-04 Building a next generation Home Automation system is not as difficult as you think This home automation book teaches takes you through a step by step process on how to build a system to control your Home Lighting Thermostats Window Dressing IP Cameras Music Garden Kitchen Fire and Security Alarm on your Smartphone or Tablet device With this new book Gerard de mystifies Smart Homes by using easy to understand language this book walks you through the process of setting up your own next generation smart Home automation system Each chapter includes technical illustrations examples of how smart homes are helping people and insights from Gerard **Computational Intelligence and Intelligent Systems** Zhenhua Li,Xiang Li,Yong Liu,Zhihua Cai,2012-10-06 This book constitutes the refereed proceedings of the 6th International Symposium on Intelligence Computation and Applications ISICA 2012 held in Wuhan China in October 2012 The 72 revised full papers presented were carefully reviewed and selected from numerous submissions The papers are organized in topical sections on artificial life adaptive behavior agents and ant colony optimization combinatorial and numerical optimization communications and computer networks data mining evolutionary multi objective and dynamic optimization intelligent computation intelligent learning systems neural networks real world applications **Wellness Protocol for Smart Homes** Hemant Ghayvat,Subhas Chandra Mukhopadhyay,2017-01-05 This book focuses on the development of wellness protocols for smart home monitoring aiming to forecast the wellness of individuals living in ambient assisted living AAL environments It describes in detail the design and implementation of heterogeneous wireless sensors and networks as applied to data mining and machine learning which the protocols are based on Further it shows how these sensor and actuator nodes are deployed in the home environment generating real time data on object usage and other movements inside the home and therefore

demonstrates that the protocols have proven to offer a reliable efficient flexible and economical solution for smart home systems Documenting the approach from sensor to decision making and information generation the book addresses various issues concerning interference mitigation errors security and large data handling As such it offers a valuable resource for researchers students and practitioners interested in interdisciplinary studies at the intersection of wireless sensing processing radio communication the Internet of Things and machine learning and in how they can be applied to smart home monitoring and assisted living environments

**Cybersecurity in Smart Homes** Rida Khatoun,2022-05-24 Smart homes use Internet connected devices artificial intelligence protocols and numerous technologies to enable people to remotely monitor their home as well as manage various systems within it via the Internet using a smartphone or a computer A smart home is programmed to act autonomously to improve comfort levels save energy and potentially ensure safety the result is a better way of life Innovative solutions continue to be developed by researchers and engineers and thus smart home technologies are constantly evolving By the same token cybercrime is also becoming more prevalent Indeed a smart home system is made up of connected devices that cybercriminals can infiltrate to access private information commit cyber vandalism or infect devices using botnets This book addresses cyber attacks such as sniffing port scanning address spoofing session hijacking ransomware and denial of service It presents analyzes and discusses the various aspects of cybersecurity as well as solutions proposed by the research community to counter the risks Cybersecurity in Smart Homes is intended for people who wish to understand the architectures protocols and different technologies used in smart homes

**Smart Sensor Networks** Umang Singh,Ajith Abraham,Arturas Kaklauskas,Tzung-Pei Hong,2021-09-01 This book provides IT professionals educators researchers and students a compendium of knowledge on smart sensors and devices types of sensors data analysis and monitoring with the help of smart sensors decision making impact of machine learning algorithms and artificial intelligence related methodologies for data analysis and understanding of smart applications in networks Smart sensor networks play an important role in the establishment of network devices which can easily interact with physical world through plethora of variety of sensors for collecting and monitoring the surrounding context and allowing environment information Apart from military applications smart sensor networks are used in many civilian applications nowadays and there is a need to manage high volume of demands in related applications This book comprises of 9 chapters and presents a valuable insight on the original research and review articles on the latest achievements that contributes to the field of smart sensor networks and their usage in real life applications like smart city smart home e healthcare smart social sensing networks etc Chapters illustrate technological advances and trends examine research opportunities highlight best practices and standards and discuss applications and adoption Some chapters also provide holistic and multiple perspectives while examining the impact of smart sensor networks and the role of data analytics data sharing and its control along with future prospects

*Sustainable Communication Networks and Application* P. Karrupusamy,Valentina Emilia Balas,Yong

Shi,2022-01-17 This book includes high quality research papers presented at 3rd International Conference on Sustainable Communication Networks and Applications ICSCN 2021 which is held at Surya Engineering College SEC Erode India during 29 30 July 2021 This book includes novel and state of the art research discussions that articulate and report all research aspects including theoretical and experimental prototypes and applications that incorporate sustainability into emerging applications The book discusses and articulates emerging challenges in significantly reducing the energy consumption of communication systems and also explains development of a sustainable and energy efficient mobile and wireless communication network It includes best selected high quality conference papers in different fields such as Internet of Things cloud computing data mining artificial intelligence machine learning autonomous systems deep learning neural networks renewable energy sources sustainable wireless communication networks QoS network sustainability and many other related areas Introduction to Smart Regions Smart Cities and Smart Villages Mr. Rohit Manglik,2024-03-07 EduGorilla
