**Defense and Deception** Kevin Cardwell, 2022-08-01. The hit cybersecurity book featured on Business Insider. The reason I decided to write this book is to show that we have to rethink how we look at security. We continue to use the same methods and the threat continues to evolve and bypass it so we need to understand we need a paradigm shift and this book is to help you with this shift. The book takes you from the essential and fundamentals of defense required to protect our modern networks to the advanced concepts of segmentation and isolation to mitigate the risk then we introduce you to the methods of deploying deception decoys on the network.
