**Southern by the Grace of God** Megan Hunt,2024-11 Like the media coverage of the civil rights era itself Hollywood dramas have reinforced regional stereotypes of race class and gender to cleanse and redeem the wider nation from the implications of systemic racism As Southern by the Grace of God reveals however Hollywood manipulates southern religion in particular to further enhance this pattern of difference and regional exceptionalism consistently displacing broader American racism through a representation of the poor white southerner who is as religious as he and it is always a he is racist By foregrounding the role of religion in these characterizations Megan Hunt illuminates the pernicious intersections between Hollywood and southern exceptionalism a long standing U S nationalist discourse that has assigned racial problems to the errant South alone enabling white supremacy to not only endure but reproduce throughout the nation Southern by the Grace of God examines the presentation and functions of Protestant Christianity in cinematic depictions of the American South Hunt argues that religion is an understudied signifier of the South on film used with varying degrees of

sophistication to define the region's presumed exceptionalism for regional, national and international audiences. Rooted in close textual analysis and primary research into the production and reception of more than twenty Hollywood films that engage with the civil rights movement and its legacy, this book provides detailed case studies of films that use southern religiosity to negotiate American anxieties around race, class and gender. Religion Hunt contends that the South in popular culture is an integral trope of the divisions essential to Hollywood storytelling. **School Library Journal**, 2010
