Brain Carl F. Craver, 2007-06-07 Carl Craver investigates what we are doing when we use neuroscience to explain what's going on in the brain. When does an explanation succeed and when does it fail? Craver offers explicit standards for successful explanation of the workings of the brain on the basis of a systematic view about what neuroscientific explanations are: they are descriptions of mechanisms.

Field Guide to Soils and the Environment: Applications of Soil Surveys Gerald W. Olson, 2012-12-06 The success of the book *Soils and the Environment* in the applications of soil surveys illustrates the need for further, more detailed work toward the end of improving productivity and information about soil survey interpretations, uses, efficiency in the use of soils, and the environment of soil surveys, especially for laypersons, teachers. Although laypersons, teachers, and students are the primary groups addressed by this *Field Guide*, the environment is secluded in offices of various other people involved with using soil surveys: agencies and institutions, and thus is not readily or will be agriculturalists, agronomists, assessors, available to the people who need it. Techniques for botanists, conservationists, contractors, ecologists, finding and using the information are also not well known, so there is great need for this *Field Guide*. Economists, engineers, extension workers, foresters, geologists, groundwater experts, planners, to *Soils and the Environment* to provide teachers, politicians, public health officials, range managers, and learners with exercises that will give them recreationists, soil scientists, wildlife specialists, and many others. This *Field Guide* complements practice leading to confidence in the manipulation and enhances the book *Soils and the Environment* and utilization of soil survey data. In a sense, all published in 1981 of us are or should be learners and teachers in the use of soil survey information. This *Field Guide*.
