Waiting on Retirement Mary Gatta,2018-10-02 America is witnessing a retirement crisis As the labor market shifts to the gig economy and new strains restrict social security the American Dream of secure retirement becomes further out of reach for up to half of the population In *Waiting on Retirement* Mary Gatta takes the case of restaurant workers to examine the experiences of low wage workers who are middle aged aging and past retirement age She deftly explores the many factors shaping what it means to grow old in economic insecurity as her subjects face race and gender based inequities health hazards associated with their work and the bitter reality that the older they get the fewer professional opportunities are available to them More importantly Gatta demonstrates that these problems are pervasive as more industries adopt the worst workplace practices of service work In light of these trends we must consider the devastating effects on already vulnerable Americans because as Gatta contends this crisis does not need to be inevitable Taking as a model the small percentage of good restaurant jobs that exist she ultimately offers incisive commentary on what can be done to stave off this bleak future

Technology and the American Economic Transition ,1988 Technology and Oligopoly Capitalism Luis

Suarez-Villa,2023-04-14 Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America s social economic and political reality Technology oligopolies are the most powerful socioeconomic entities in America From cradle to grave the decisions they make affect the most intimate aspects of our lives how we work what we eat our health how we communicate what we know and believe whom we elect and how we relate to one another and to nature Their power over markets trade regulation and most every aspect of our governance is more intrusive and farther reaching than ever They benefit from tax breaks government guarantees and bailouts that we must pay for and have no control over Their accumulation of capital creates immense wealth for a minuscule elite deepening disparities while politics and governance become ever more subservient to their power They determine our skills and transform employment through the tools and services they create as no other organizations can They produce a vast array of goods and services with labor marketing and research that are more intrusively controlled than ever as workplace rights and job security are curtailed or disappear Our consumption of their products and their capacity to promote wants is deep and far reaching while the waste they generate raises concerns about the survival of life on our planet And their links to geopolitics and the martial domain are stronger than ever as they influence how warfare is waged and who will be vanquished Technology and Oligopoly Capitalism s critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power Numerous previously unpublished ideas expand the repertory of established work on the topics covered advancing explanatory quality to elucidate how and why technology oligopolies operate as they do the dysfunctions that accompany their power and their effects on society and nature This book has no peers in the literature in its scope the unprecedented amount and diversity of documentation the breadth of concepts and the vast number of examples it provides Its premises deserve to be taken into account by every student researcher policymaker and author interested in the socioeconomic and political dimensions of technology in America *The Women of NOW* Katherine

Turk,2023-08-15 A clear blueprint for change A must read Clara Bingham The Guardian The history of NOW its organization trials and revolutionary mission told through the work of three members In the summer of 1966 crammed into a D C hotel suite twenty eight women devised a revolutionary plan Betty Friedan the well known author of *The Feminine Mystique* and Pauli Murray a lawyer at the front lines of the civil rights movement had called this renegade meeting from attendees at the annual conference of state women s commissions Fed up with waiting for government action and trying to work with a broken system they laid out a vision for an organization to unite all women and fight for their rights Alternately skeptical and energized they debated the idea late into the night In less than twenty four hours the National Organization for Women was born In *The Women of NOW* the historian Katherine Turk chronicles the growth and enduring influence of this foundational group through three lesser known members who became leaders Aileen Hernandez a federal official of Jamaican American

heritage Mary Jean Collins a working class union organizer and Chicago Catholic and Patricia Hill Burnett a Michigan Republican artist and former beauty queen From its bold inception through the tumultuous training ground of the 1970s NOW's feminism flooded the nation permanently shifted American culture and politics and clashed with conservative forces presaging our fractured national landscape These women built an organization that was radical in its time but flexible and expansive enough to become a mainstream fixture This is the story of how they built it and built it to last Includes 16 pages of black and white images *Communication, Advocacy, and Work/Family Balance* Jenny Dixon, 2017-06-26 This book presents an understanding of work family balance for working adults belonging to a number of different family structures e g single and or childfree adults LGBT couples families with female breadwinners It contends that family structure should serve as a way of thinking about diversity i e race gender age family in the U S workplace It also argues that in addition to accommodations occurring through workplace policy the negotiation of work family balance happens as a result of self advocacy that occurs in everyday communication about family at work Relaying the stories of a number of different working adults belonging to a variety of different family structures it explores the range of obstacles faced in the attempt at balancing work and family life generates informed ideas for eliminating barriers commonly experienced in balancing work and family and problematizes enduring assumptions regarding gender roles and the myth of steadfast public and private spheres

leisure joy and meaning *Dreams of the Overworked* Christine M. Beckman, Melissa Mazmanian, 2020-06-09 A riveting look at the real reasons Americans feel inadequate in the face of their dreams and a call to celebrate how we support one another in the service of family and work in our daily life Jay's days are filled with back to back meetings but he always leaves work in time to pick his daughter up from swimming at 7pm knowing he'll be back on his laptop later that night Linda thinks wistfully of the treadmill in her garage as she finishes folding the laundry that's been in the dryer for the last week Rebecca sits with one child in front of a packet of math homework while three others clamor for her attention In *Dreams of the Overworked* Christine M Beckman and Melissa Mazmanian offer vivid sketches of daily life for nine families capturing what it means to live work and parent in a world of impossible expectations now amplified unlike ever before by smart devices We are invited into homes and offices where we recognize the crushing pressure of unraveling plans and the healing warmth of being together Moreover we witness the constant planning that goes into a good day often with the aid of phones and apps Yet as technologies empower us to do more they also promise limitless availability and connection Checking email on the weekend monitoring screen time and counting steps are all part of the daily routine The stories in this book challenge the seductive myth of the phone clad individual by showing that beneath the plastic veneer of technology is a complex hidden system of support our dreams being scaffolded by retired in laws friendly neighbors spouses and paid help This book makes a compelling case for celebrating the structures that allow us to strive for our dreams by supporting public policies and community organizations challenging workplace norms reimagining family and valuing the joy of human connection
