

Controls Right Where You Want Them... For Simple—Easy Operation

OPERATING LIGHT

Lights up automatically when motor switch is turned on. Floods Estimator platter with light and serves as signal that motor is running.

ESTIMATOR

Takes the guess work out of slicing. You slice the full amount requested every time. No need to guess or stop to a scale. No check stop to the slicing operation. Makes portion control easy too.

MOTOR SWITCH

Conveniently located directly below Gauge Plate Control. Turns on the motor and the operating light.

Max. 72 production quickly sections Gauge Plate for slicing any thickness up to 1/4". "Back of zero" setting gives extra safety for incidental slicing. Located right where you want it for easy operation.

LEVELING FOOT is located at the bottom corner of the Slice. Built using the Slicer, it should be leveled and put on to firm footing. Large knurled nut makes finger adjustment easy without tools.

MEAT CARRIER

Angled at 45 degrees... allows foods to slide into the knife with "just right" pressure for fast, uniform slicing. Plated design means smooth, steady feeding.

GAGE PLATE

Quality stainless steel construction... controls slice thickness and assures uniformity. As thickness is increased, Gauge plate moves back from knife, prevents binding slices. Positive positioning provided by Gauge Plate Control.

TWO-PIECE KNIFE GUARD

A two-piece Guard effectively shields the knife. Even when Back Guard removed knife is protected. Guards are easily removed for cleaning.

END SLICE PLATE

Makes it easy and safe to produce variable slices. Slides right to the end. Swings out of the way backward. Operates in 10 seconds when not in use.

ESTIMATOR INDICATOR

It never has to be reset—indicator automatically indicates weight of food on Estimator platter. Shows approximate weight up to two pounds in one ounce gradations.

MEAT CARRIAGE

Slides smoothly on three rails. Controlled action in both ends of travel. Quality removable in 10 seconds for cleaning.

SHARPENER

Fast, efficient, and safe. Sharpener is located in a handy compartment on the back. Carriage. Withdrawn Sharpener is mounted only when in use.

The model 3400 is regularly equipped for use with 115 volt, single phase, 60 cycle AC current. Check the current specifications on the name plate, and be sure the machine is plugged into the proper outlet before operating.
