Jardetzky,Jean-François Lefèvre,2012-12-06 From within complex structures of organisms and cells down to the molecular level biological processes all involve movement Muscular fibers slide on each other to activate the muscle as polymerases do along nucleic acids for replicating and transcribing the genetic material Cells move and organize themselves into organs by recognizing each other through macromolecular surface specific interactions These recognition processes involve the mutual adaptation of structures that rely on their flexibility All sorts of conformational changes occur in proteins involved in through membrane signal transmission showing another aspect of the flexibility of these macromolecules The movement and flexibility are inscribed in the polymeric nature of essential biological macromolecules such as proteins and nucleic acids For instance the well defined structures formed by the long protein chain are held together by weak noncovalent interactions that design a complex potential well in which the protein floats permanently fluctuating between several micro or macroconformations in a wide range of frequencies and amplitudes The inherent mobility of biomolecular edifices may be crucial to the adaptation of their structures to particular functions Progress in methods for investigating macromolecular structures and dynamics make this hypothesis not only attractive but more and more testable The Cultural Front Michael

Denning,1998 As garment workers longshoremen autoworkers sharecroppers and clerks took to the streets striking and organizing unions in the midst of the Depression artists writers and filmmakers joined the insurgent social movement by creating a cultural front Disney cartoonists walked picket lines and Billie Holiday sang Strange Fruit at the left wing cabaret Caf Society Duke Ellington produced a radical musical Jump for Joy New York garment workers staged the legendary Broadway revue Pins and Needles and Orson Welles and his Mercury players took their labor operas and anti fascist Shakespeare to Hollywood and made Citizen Kane A major reassessment of US cultural history The Cultural Front is a vivid mural of this extraordinary upheaval which reshaped American culture in the twentieth century **Frontier Orbitals**
