LLB John McGarry, 2016-02-22 Often law students don't achieve the results they are capable of not because of a lack of intellectual ability but because they haven't fully understood what is required of them and what they could and should do to achieve higher marks. Acing the LLB will help those students realise their full potential and achieve the very best marks. It explains what lecturers are looking for in a top class answer and is packed with easy to follow practical advice that students can use to improve their performance. The author draws upon his own experiences as a lecturer and marker of student work as well as those of colleagues at a range of institutions to offer sound and realistic advice. Engaging, accessible and very readable, this is an ideal guide for anyone starting out on an LLB or for current law students who are looking to improve their grades.

The Antiracist Educator Pranav Patel, 2022-01-12 In a society that privileges whiteness, racist ideas have become normalised throughout our educational institutions and curriculum. We are not born racist or antiracist; these result from the choices we make. Choosing this book means making a conscious choice to learn about how racism is embedded within the UK education system and deciding to fight against it. Choosing this book starts you on your antiracist journey as a teacher. As a teacher, you are in a position of power. It is the school system which is the starting point for how children learn to view the world and accept knowledge, and you have the power to impact change to create a more inclusive and diverse society. Written by Pranav Patel, who has nearly 2 decades of teaching experience and is a TEDx speaker, campaigner and blogger, this book is your call to action. Covering a range of important topics such as unconscious bias, stereotyping, assessment and discrimination, and racialised trauma in childhood, this book shows you how to identify and challenge the racist structures in which we are brought up. How to acknowledge the impact and roles you play in upholding racism. What actions can you take as an ally in your everyday life. Becoming antiracist is not a quick fix; it is a lifelong education for you and the children you teach. Let's begin the journey today.

Handbook of Test Development Suzanne Lane, Mark R. Raymond, Thomas M. Haladyna, 2015-10-08 The second edition of the Handbook of Test Development provides graduate students and professionals with an up-to-date research-oriented guide to the latest developments in the field. Including thirty-two chapters by well-known scholars and practitioners, it is divided into five sections covering the foundations of test development, content definition, item development, test design and form assembly, and the processes of test administration, documentation and evaluation. Keenly aware of developments in the field since the publication of the first edition, including changes in technology, the evolution of psychometric theory, and the increased demands for effective tests via educational policy, the editors of this edition include new chapters on assessing noncognitive skills, measuring growth and learning progressions, automated item generation, and test assembly and computerized scoring of constructed responses. The volume also includes expanded coverage of performance testing, validity, fairness, and numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M.

Assessment for Social Justice Jan McArthur, 2018-03-22 Assessment for Social Justice takes the established idea of assessment for learning and extends it to consider how assessment contributes to social justice within and through higher education Jan McArthur invites the reader to rethink familiar positions on assessment and fairness and seeks to explore the full complexity of a critical theory inspired notion of social justice She positions her work in contrast to more procedural approaches to social justice such as John Rawls's influential theorisation of social justice In contrast McArthur draws on the work of third generation critical theorist Axel Honneth and takes inspiration from Honneth's three realms of mutual recognition in order to reconsider the nature of assessment relationships and practices A further theoretical strand is introduced in the form of social practice theory and particularly the work of Theodore Shatzki McArthur provides a theoretically rigorous understanding of assessment as a social practice and as a vehicle both for and against social justice Together with critical theory this work enables a realizable vision of an alternative approach to assessment in higher education where the underlying aim is greater social justice McArthur argues that students must be nurtured to recognise the social contribution that they can make as a result of engaging with knowledge in higher education rather than defining
