Creative Learning and MOOCs Haifa Jamal Al-Lail, Nabil Sultan, 2015-10-13 This volume brings together a collection of selected and revised articles that were presented at the 11th Learning and Technology Conference held by Effat University in Jeddah Saudi Arabia in February 2014 The conference is an annual event that explores the latest research and practice in innovative technologies and their impact on education The contributions to this volume are all authored by practicing academics and research students with the central theme the realisation that learning and teaching are strongly influenced by technology and innovation Schools colleges and academic institutes took the lead in harnessing this technology and created innovative opportunities for learning that did not exist before one of which being the field of e Learning One of the latest innovations in education is the introduction of Massive Open Online Courses MOOCs which represents an interesting development in the use of technology and innovation by providing opportunities for learning to massive numbers of students regardless of their location at almost no cost This phenomenon is subject to a great deal of analysis in this book and will provide an interesting read for students teachers decision makers and ordinary people A particular strength of this book is that the contributors are drawn from and represent a number of cultural backgrounds which provides a range of insights that is often missing from other publications on such important subjects

Human Rights and Ethics: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2014-09-30 In today's increasingly interconnected and global society the protection of basic liberties is an important consideration in public policy and international relations Profitable social interactions can begin only when a foundation of trust has been laid between two parties Human Rights and Ethics Concepts Methodologies Tools and Applications considers some of the most important issues in the ethics of human interaction whether in business politics or science and technology Covering issues such as cybercrime bioethics medical care and corporate leadership this four volume reference work will serve as a crucial resource for leaders innovators educators and other personnel living and working in the modern world

Social Media Marketing in BRIC Countries Elena Trost, 2013 The economic growth and increasing Internet access within the countries of Brazil Russia India and China BRIC is opening new opportunities for companies to

reach wider audiences This study examines these opportunities and assesses how global companies are capitalizing on these emerging markets in particular the degree to which digital marketing and social CRM through social networks are being used For the purposes of this analysis three German brands are examined in detail BMW Adidas and NIVEA The book shows that the regular interaction with Internet users and the monitoring of social networks can result in companies experiencing an uplift in both public perception and engagement Another aspect addressed is the cultural variance that needs to be taken into account when planning social media activities The book concludes that the full potential of social media has yet to be utilized within the BRIC countries and that there is a unique opportunity to be realized by companies Series Internet Economy Internetökonomie Vol 6

Global Mergers and Acquisitions Abdol S. Soofi, Yuqin Zhang, 2018-03-19 This book primarily deals with corporate restructuring through mergers and acquisitions M As It critically examines all functions that must be performed in completing an M A transaction Domestic and crossborder M A s are very similar in many respects even though differences between them also exist The book includes discussions of international finance and multinational financial management the topics that arise in cross border M A transactions Given the increasing importance of China as the second largest economy in the world and Chinese companies growing merger and acquisition M A activities globally we devote the last two chapters of the book to China s outward foreign direct investment and cross border M A activities Moreover the second volume includes the case studies regarding Chinese foreign direct investment both in Greenfield and acquisition forms give additional insights into challenging tasks of due diligence and post merger cultural integration that foreign investors face The M A literature is a fragmented field of inquiry This book brings together important practical insights from this vast literature in a short but cohesive form that has high managerial relevance

Customer Relationship Management and IT Danil Dintsis, 2020-06-03 All of us enjoy individually specific service or a product that is delivered for us only Customer relationship management CRM is the area of expertise that helps companies to work with customers based on their specific needs or requirements To reach success CRM systems implement the most powerful math and IT tools such as statistical analysis artificial neural nets and graph systems This book deals with the practical implementation and meta analysis of CRM experience in various locations and business areas The authors have produced a great book and provided meta analysis of the latest CRM systems and a roadmap of their development In the chapters our readers will find descriptive analysis of CRM models applied tools and methods
