Helen Palmer, 1998-12-28 Inner Knowing illustrates that the human mind possesses the capability to consistently function at significantly high levels of perception creativeness and intuitiveness Indeed everyone has at one time in his life experienced a sense of mindful clarity that led to a Eureka moment In this latest addition to Tarcher's successful New Consciousness Reader series Helen Palmer author of The Enneagram has compiled a collection of writings that explore such abilities and illustrate how they can be developed Essays on exercising the mind understanding synchronicity experiencing flow establishing communication between the conscious and subconscious utilizing the active imagination listening to the body's feedback and witnessing psychic displays of walking on fire clairvoyance and similar phenomena make up this enlightening thought provoking and fascinating anthology Contributors include Bruno Bettelheim Jean Shinoda Bolen Sylvia Boorstein Pema Chodron Mihaly Csikszentmihalyi Betty Edwards Erich Fromm Daniel Goleman Aldous Huxley Carl Jung Jack Kornfield J Krishnamurti Philip Novak Charles Tart Montague Ullman Frances Vaughan Mark Waldman and Roger Walsh A sophisticated book representing the essence of the NCR series Inner Knowing offers readers confidence in themselves as they reawaken subtle senses while learning to trust and utilize new ways of perceiving knowing and living *A Safe Place for Change, revised 2nd edition* Hugh Crago, Penny Gardner, 2019-02-15 It is increasingly recognised that the strength of the bond between counsellor and client is the best indicator of a good outcome for the client The theoretical model employed by the counsellor matters less than the relationship the counsellor can build with each individual client Yet first year counselling students continue to be taught about different models of therapy and specialised approaches supposedly needed by clients with different problems The result is often confusion and uncertainty and many trained counsellors graduate without a solid grasp of how to form an authentic relationship with any client Unlike most texts A Safe Place for Change focuses squarely on the therapeutic relationship Skills are presented in terms of their contribution to the relationship Theories and models are referred to throughout but the authors emphasise what the different approaches have in common rather than the specialised terminology that often makes them seem more different than they actually are The personal capacities and skills that distinguish a good counsellor or therapist are presented in the same order in which they would appear within the actual therapeutic relationship The initial chapters teach holding and exploring skills that are almost automatically required in the first few sessions with a new client Then follows a chapter that deals with the challenge to the counsellor client relationship which often appears after the first two sessions and shows counsellors how they can respond most usefully to that challenge As the therapeutic relationship continues and deepens it becomes possible to invite clients to consider how they might be contributing to their own problems the skill of gentle honesty or encountering Finally the authors introduce two different approaches to achieving change solving the problem via advice instruction and homework and re-parenting the person something that is more likely to be crucial in long term work with clients who present entrenched difficulties in living and

relating Well written insightful and accessible this textbook speaks directly to students of counselling and psychotherapy recognising their needs and their challenges The authors real world experience is evident throughout the book as is their skill in teaching complex concepts in clear language Six Pathways to Healthy Child Development and Academic Success James P.
