The first part of this book regards a holistic analysis of law as a general theory; the second part focuses on the history of law and the holistic analysis; the third part focuses on procedural law and practice and the holistic analysis, namely the holistic look at counselling as a lawyer in the United States; a holistic method of a mediator studying conflict in Russia; and beyond a holistic analysis of Chinese procedural law and the holistic analysis of evidence evaluation in international law. The fourth part includes holistic analysis of law relating to modern issues such as artificial intelligence, climate change, and climate refugees, and a chapter on the economic diplomacy of Vietnam as a holistic approach model.

Law: A Very Short Introduction Raymond Wacks, 2015-09-24. Law is at the heart of every society, protecting rights, imposing duties, and establishing a framework for the conduct of almost all social, political, and economic activity. Despite this, the law often seems a highly technical, perplexing mystery with its antiquated and often impenetrable jargon, obsolete procedures, and endless stream of complex statutes and legislation. In this *Very Short Introduction*, Raymond Wacks introduces the major branches of the law, describing what lawyers do and how courts operate, and considers the philosophy of law and its pursuit of justice, freedom, and equality. In this second edition, Wacks locates the discipline in our contemporary world, considering the pressures of globalization and digitalisation and the nature of the law in our culture of threatened security and surveillance.

Biopolitics and Structure in Legal Education Luca Siliquini-Cinelli,Thomas Giddens,2023-06-30 Taking up the study of legal education in distinctly biopolitical terms this book provides a critical and political analysis of structure in the law school Legal education concerns the complex pathways by which an individual becomes a lawyer making the journey from lay person to expert from student to practitioner To pose the idea of a biopolitics of legal education is not only to recognise the

tensions surrounding this journey but also to recognise that legal education is a key site in which the subject engages and is engaged by a particular structure and here the particular structure of the law school This book explores that structure by addressing the characteristics of the biopolitical orders engaged in legal education including understanding the lawyer as a commodity unpicking the force relations in legal education examining the ways codes of conduct in higher education impact academic freedom as well as putting the distinctly Western structures of legal learning within a wider context Assembling original field defining essays by both leading international scholars and emerging researchers it constitutes an indispensable resource in legal education research and scholarship that will appeal to legal academics everywhere Understanding Jurisprudence Raymond Wacks,2005 **A Culture of Engagement** Cathleen Kaveny,2016 Religious traditions in the United States are characterized by ongoing tension between assimilation to the broader culture as typified by mainline Protestant churches and defiant rejection of cultural incursions as witnessed by more sectarian movements such as Mormonism and Hassidism However legal theorist and Catholic theologian Cathleen Kaveny contends there is a third possibility a culture of engagement that accommodates and respects tradition It also recognizes the need to interact with culture to remain relevant and to offer critiques of social political legal and economic practices Kaveny suggests that rather than avoid the crisscross of the religious and secular spheres of life we should use this conflict as an opportunity to come together and to encounter challenge contribute to and correct one another Focusing on five broad areas of interest Law as a Teacher Religious Liberty and Its Limits Conversations about Culture Conversations about Belief and Cases and Controversies Kaveny demonstrates how thoughtful and purposeful engagement can contribute to rich constructive and difficult discussions between moral and cultural traditions This provocative collection of Kaveny s articles from Commonweal magazine substantially revised and updated from their initial publication provides astonishing insight into a range of hot button issues like abortion assisted suicide government sponsored torture contraception the Ashley Treatment capital punishment and the role of religious faith in a pluralistic society At turns masterful and inspirational A Culture of Engagement is a welcome reminder of what can be gained when a diversity of experiences and beliefs is brought to bear on American public life **Social Work, Law and Ethics** Jonathan Dickens,2013 This book takes a problem based approach to explore the dilemmas that arise when the law and social work ethics conflict It highlights what the law says what ethical principles are at stake and what these imply for policy and practice helping students to develop an understanding of the issues involved
