

0.6 Introduction

The Vauxhall/Opel Vectra was introduced in the UK in October 1995 as a replacement for the Cavalier. It was originally available in Saloon and Hatchback versions with 1.6, 1.8, 2.0 and 2.5 litre petrol engines and 1.7 litre normally aspirated diesel engines. The Estate range was launched in October 1996. This Manual covers the facelifted models introduced in March 1999 which were available with 1.6, 1.8, 2.0 and 2.2 litre petrol engines, and 2.0 and 2.2 litre diesel engines. The 1.6 litre petrol engines are available with both single and double overhead belt-driven camshafts, the 1.8, and 2.0 litre petrol engines have belt-driven double overhead camshafts, and the 2.2 litre petrol engine has chain-driven double overhead camshafts. All the diesel engines have a single overhead belt-driven camshaft and are of direct injection design.

Models may be fitted with a five-speed manual, or four-speed automatic transmission mounted on the left-hand side of the engine.

All models have front-wheel-drive with fully-independent front and rear suspension.

Power steering (PAS) and Anti-Lock Braking (ABS) are fitted as standard to all models.

All models have a driver's airbag, and side airbags may be fitted as an option. Air conditioning is also available as an option.

For the home mechanic, the Vauxhall/Opel

Vectra is a straight-forward vehicle to maintain and repair since design features have been incorporated to reduce the actual cost of ownership to a minimum, and most of the items requiring frequent attention are easily accessible.

Your Vauxhall/Opel Vectra manual

The aim of this manual is to help you get the best value from your vehicle. It can do so in several ways. It can help you decide what work must be done (even should you choose to get it done by a garage), provide information on routine maintenance and servicing, and give a logical course of action and diagnosis when random faults occur. However, it is hoped that you will use the manual by tackling the work yourself. On simpler jobs, it may even be quicker than booking the car into a garage and going there twice, to leave and collect it. Perhaps most important, a lot of money can be saved by avoiding the costs a garage must charge to cover its labour and overheads.

The manual has drawings and descriptions to show the function of the various components, so that their layout can be understood. Then the tasks are described and photo-

graphed in a clear step-by-step sequence.

References to the 'left' or 'right' are in the sense of a person in the driver's seat, facing forward.

Project vehicles

The main vehicle used in the preparation of this manual, and which appears in many of the photographic sequences, was a Vauxhall Vectra Hatchback with a 2.2 litre petrol engine. Other vehicles included a Hatchback 2.0 litre diesel engine model.
