- 3** Once the wire is inserted, position the probe along the circumference of the wire. The probe is designed to follow the wire's contour and will automatically detect the wire's position. Once the probe is in position, the wire will be visible on the monitor screen. The probe will also detect the wire's position on the other side of the wire. The probe will also detect the wire's position on the other side of the wire. The probe will also detect the wire's position on the other side of the wire.
