African Womanhood and the Feminist Agenda Musingafi, Maxwell Constantine Chando,Hungwe, Chipo,2024-01-16 Within academic circles there is a longstanding issue concerning the portrayal and understanding of African womanhood Frequently these narratives are crafted by outsiders predominantly Western scholars often distorting the lived experiences and unique perspectives of African women This has led to a skewed and sometimes negative perception of African women reinforcing stereotypes and sidelining their voices in critical discussions Moreover this misrepresentation has real world consequences as it impacts social justice initiatives and development projects that rely on misguided narratives rather than the authentic voices of African women African Womanhood and the Feminist Agenda emerges as an essential solution to the misrepresentation of African women This comprehensive and meticulously researched

book offers an alternative narrative one that is rooted in African perspectives and experiences It addresses the historical cultural and political dimensions of African womanhood providing a rich and nuanced understanding of this multifaceted topic ICEL 2018 13th International Conference on e-Learning Professor Eunice Ivala,2018-07-05 **Management of Fusarium Species and Their Mycotoxins in Cereal Food and Feed** Thomas Miedaner,Daniela Gwiazdowska,Agnieszka Waśkiewicz,2017-11-10 Health and safety of food and feed are the most important criteria for their quality The quality of feed is in turn important for animal health the environment and for the safety of food from animal origin Fungi belonging to the Fusarium genus are widespread in crops causing plant diseases and producing toxic metabolites Fusarium species can colonize plants during their growth on the field and cause serious damage in terms of yield and quality of harvested grains One of the most important fungal diseases of wheat and other cereals in the world is Fusariumhead blight caused by the fungal pathogens Fusarium graminearum and Fusarium culmorumand others In addition these fungi produce mycotoxins contaminating food and feed The most important Fusarium mycotoxins include trichothecenes zearalenone and fumonisins primarily because of their prevalence but also because of the toxic effect to humans and animals However these fungi produce also other mycotoxins such as moniliformin beauvericin enniantin or fusarins Food and feed can be contaminated with mycotoxins at various stages in the production chain resulting in serious problems with health safety and economic losses It is estimated that 25% of the crop in the world each year are contaminated with these metabolites the problem affects both industrialized countries and developing countries The aim of this Research Topic of Frontiers in Microbiology is to publish state of the art research about occurrence and genomics of Fusarium species and their mycotoxins in the whole food and feed chain starting from the crops as well as implications for health and economic aspects This research topic highlights the current knowledge on the plant diseases caused by Fusarium fungi as well as all aspects of Fusarium mycotoxin contamination of crops food and feed taking into account decontamination methods **Faculty Perspectives on Vocational Training in South Africa** Eunice Ivala,Chaunda Scott,2019-03-06 The Cape Peninsula University of Technology CPUT is one of four Universities of Technology established by the South African government in 2005 with a focus on vocational training This book presents faculty experiences of CPUT s innovative work integrated learning and teaching model as well as findings from practice based research being done in the institution The purpose of this volume is to be a resource for other institutions in South Africa that wish to try similar strategies as well as a to trigger a community of practice with vocationally oriented institutions outside of South Africa **Digital Transformation and Internationalization Strategies in Organizations** Yildiz, Orkun,2021-10-15 Competitive strategies and higher education industry collaboration policies are playing an important role in fostering the reputation and international rankings of higher education institutions The positive impact of these policies may best be observed in economic and social outputs of many countries such as the USA Singapore South Korea EU countries and Turkey However the number of academic publications that specifically concentrate on the

impact of these policies on higher education institutions and authorities remains relatively limited Digital Transformation and Internationalization Strategies in Organizations covers a wide range of issues and topics including employment systems quality management systems international ranking systems in higher education education and language policies in higher education and business models employed in techno parks This book helps higher education institutions manage their manpower and become cognizant of the factors that may exert a drastic impact on their success It is ideal for managers executives IT consultants researchers practitioners academics professors and undergraduate and postgraduate students

Higher Education - Reflections From the Field - Volume 1 ,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on The Perspectives of Higher Education COVID as a Catalyst for Change Embracing Online Learning as a Response to COVID and Post Covid The Way Forward It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic

Applying Critical Mathematics Education ,2021-07-05 There is no shortage of urgent complex problems that mathematics education can and should engage with Pandemics forest fires pollution Black Lives Matter protests and fake news all involve mathematics are matters of life and death have a clear political dimension and are interdisciplinary in nature They demand a critical approach The authors in this volume showcase new insights teaching ideas and new and unique ways of applying critical mathematics education in areas as diverse as climate change obesity decolonisation and ethnomathematics This book demonstrates that there is plenty to be done with critical mathematics education Contributors are Annica Andersson Tonya Gau Bartell Richard Barwell Lisa Lunney Borden Sunghwan Byun Anna Chronaki Brian Greer Jennifer Hall Victoria Hand Kjellrun Hiis Hauge Beth Herbel Eisenmann Rune Herheim Courtney Koestler Kate le Roux Swapna Mukhopadhyay Aldo Parra Anita Rampal Sheena Rughubar Reddy Toril Eskeland Rangnes Ulrika Ryan Lisa Steffensen Paola Valero and David Wagner

Encyclopedia of Food Grains Colin W

Wrigley, Harold Corke, Koushik Seetharaman, Jonathan Faubion, 2015-12-17 The Encyclopedia of Food Grains Four Volume Set is an in depth and authoritative reference covering all areas of grain science Coverage includes everything from the genetics of grains to the commercial economic and social aspects of this important food source Also covered are the biology and chemistry of grains the applied aspects of grain production and the processing of grains into various food and beverage products With the paramount role of cereals as a global food source this Encyclopedia is sure to become the standard reference work in the field of science Also available online via ScienceDirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy For more information pricing options and availability visit www.info.sciencedirect.com Written from an international perspective the Encyclopedia concentrates on the food uses of grains but details are also provided about the wider roles of grains Well organized and accessible it is the ideal resource for students researchers and professionals seeking an authoritative overview on any particular aspect of grain science This second edition has four print volumes which provides over 200 articles on food grains Includes extensive cross referencing and Further Reading lists at the end of each article for deeper exploration into the topic This edition also includes useful items for students and teachers alike with Topic Highlights Learning objectives Exercises for Revision and exercises to explore the topic further
