Accounting Education for the 21st Century Jane O. Burns,Belverd E. Needles,2014-06-28 Accounting practice whether in business or government is more dynamic more complex and addresses a wider array of issues than it did as little as five years ago Significant and rapid social political technological and economic changes are taking place in the world economy and it is increasingly recognised that accountants in all countries play a key role in the process of economic development Accounting education is undergoing a thorough review on a worldwide basis and major developments are taking place to produce quality accounting education that can keep pace with dramatic world change This book provides an up to date view of the state of accounting education throughout the world and focusses on the global challenges facing accounting education as we approach the millenium Century 21 Accounting Swanson,Melanie H. Rhode,2003-04-10 Two thousand years ago Seneca described advocates not as seekers of truth but as accessories to injustice smothered by their prosperity This unflattering assessment has only worsened over time The vast majority of Americans now perceive lawyers as arrogant unaffordable hired guns whose ethical practices rank just slightly above those of used car salesmen In this penetrating new book Deborah L Rhode goes beyond the commonplace attacks on lawyers to provide the first systematic study of the structural problems confronting the legal profession A past president of the Association of American Law Schools and senior counsel for the House Judiciary Committee during Clinton s impeachment proceedings Rhode brings an insider s knowledge to the labyrinthine complexities of how the law works or fails to work for most Americans and often for lawyers themselves She sheds much light on problems with the adversary system the commercialization of practice bar disciplinary processes race and gender bias and legal education She argues convincingly that the bar s current self regulation must be replaced by oversight structures that would put the public s interests above those of the profession She insists that legal education become more flexible by offering less
