The Beast S Bride Once Upon A Time Travel Volume :

The Works of Lord Byron Complete in One Volume George Gordon Byron Baron Byron, 1837 *Reading Texts, Reading Lives* Daniel Morris, Helen Maxson, 2012-06-14 Our culture attempts to separate competing ideological factions by denying relationships between multiple perspectives and influences outside of one's own narrow interpretive community The distinguished essayists in this volume find Daniel R Schwarz's pluralistic self-questioning approach to what he calls reading texts and reading lives quite relevant to the current historical moment and political situation A legendary scholar of modernist literature Schwarz's critical principles are a healthy corrective to cultural hubris The essayists treat works ranging from fictions by Joyce Conrad Morrison and Woolf to the poetry of Yeats to Holocaust literature to the environmental writings of Wendell Berry to the photographs of Lee Friedlander The authors focus on different works but they follow Schwarz in stressing formal elements most often associated with traditional realism while keeping an eye on historical and author-centered approaches The essayists also follow Schwarz in their emphasis on narrative cohesion and in how they look for signs of agency among characters who possess the will to alter their fate even in a seemingly random universe such as the one depicted by Conrad Readers with eyes to ethics and aesthetics they follow Schwarz in encouraging a values-centered approach that leaves room for the reader to address the ways in which reading a text correlates to the reader's ability to find meaning and value in experience outside the text Like Schwarz the essays look for intentionality of authorial meaning rather than something called an author function as well as for the relationship between lived experience and the imagined world of the literary work rather than the endless semiotic play of an ultimately indecipherable text *Travel and Tourism in Britain, 1700-1914 Vol 1* Susan Barton, Allan Brodie, 2021-12-24 The British led the way in holidaymaking This four volume primary resource collection brings together a diverse range of texts on the various forms of transport used by tourists the destinations they visited the role of entertainments and accommodation and how these affected the way that tourism evolved over two centuries Volume 1 *Travel and Destinations* Texts in this volume draw on accounts by early travellers from short factual lists to longer subjective descriptions Documents show how eagerly new forms of transport were adopted and how they gave rise to different leisure activities and new destinations Methods of travel covered include early road travel by horse or wagon river travel via sail and steamships railways the safety bicycle motorized transport charabancs coaches buses cars and bicycles and finally air travel *The History of Four-Footed Beasts and Serpents and Insects* Edward Topsell, 2013-11-05 First Published in 1967 This is volume one of three of *The History of Four-footed Beasts* taken principally from the *Historie Animalium* of Conrad Gesner During the first decade of the seventeenth century when Topsell prepared his translation zoology had just become a science It has a unique place It was the first major book on animals printed in Great Britain in English and it appeared at the last moment in history when all zoological knowledge since antiquity could be summarized sympathetically before it was rendered a curiosity by the many new discoveries soon to come *The Works of*
