Lifesaving for Beginners Anne Edelstein, 2017-11-07 The author tells the story of how her mother's unexpected death forced her to come to terms with a tragic family past. A poignantly candid memoir. Kirkus Reviews When Anne Edelstein was forty-two her mother, a capable swimmer in good health, drowned while snorkeling in the Great Barrier Reef. Caring for two children of her own, Anne suddenly found herself grieving not only for her emotionally distant mother but also for her beloved younger brother Danny who'd killed himself violently years before and wrestling with the past and her family's legacy of mental illness as well as the emotional well-being of her children. Part memoir and part meditation on joy and grief *Lifesaving for Beginners* will resonate with anyone who's struggled to come to terms with their family and their place in the world. While dramatic events set this memoir in motion the triumph of *Lifesaving for Beginners* is that its heart lies not in the large ruptures of life but in the reconciliations that arrive quietly and routinely. I admire and envy the writing in this book. Its smooth surface belies its depths much like the open waters Edelstein swims in as she seeks her own calmness and
