Human Ethology Irenaus Eibl-Eibesfeldt, 2017-07-28 With the discovery of conditioned reflexes by I P Pavlov the possibilities for experimenting following the example set by the classical exact sciences were made available to the behavioral sciences. Many psychologists hoped that the component parts of behavior had also been found from which the entire multifaceted cosmos of behavior could then be constructed. An experimentally oriented psychology subsequently developed including the influential school of behaviorism. This first text on human ethology presents itself as a unified work even though not every area could be treated with equal depth. For example a branch of ethology has developed in the past decade which places particular emphasis on ecology and population genetics. This field known as sociobiology has enriched discussion beyond the boundaries of behavioral biology through its stimulating and often provocative theses. After vigorous debates between behaviorists anthropologists and sociologists we have entered a period of exchange of thoughts and a mutual approach which in many instances has led to cooperative projects of researchers from different disciplines. This work offers a biological point of view for discussion and includes data from the author's cross cultural work and research from the staff of his institute. It confirms above all else the astonishing unity of mankind and paints a basically positive picture of how we are moved by the same passions jealousies friendliness and active curiosity. The need to understand ourselves has never been as great as it is today. An ideologically torn humanity struggles for its survival. Our species does not know how it should compensate its workers and it experiments with various economic systems constitutions and forms of government. It struggles for freedom and stumbles into newer conflicts. Population growth is apparently completely out of hand and at the same time many resources are being depleted. We must consider our existence rati *Performing Sex* Breanne Fahs, 2011-11-01 Silver Medalist 2012 Independent Publisher Book Awards in the Women's Issues category Honorable Mention 2011 ForeWord Book of the Year in the Women's Issues Category Although conventional wisdom holds that women

in the United States today are more sexually liberated than ever before a number of startling statistics call into question this perceived victory over half of all women report having faked orgasms 45 percent of women find rape fantasies erotic a growing number of women perform same sex eroticism for the viewing benefit of men and recent clinical studies label 40 percent of women as sexually dysfunctional Caught between postsexual revolution celebrations of progress and alarmingly regressive new modes of disempowerment the forty women interviewed in *Performing Sex* offer a candid and provocative portrait of liberated sex in America Through this nuanced and complex study Breanne Fahs demonstrates that despite the constant cooptation of the terms of sexual freedom women's sexual subjectivities and the ways they continually grapple with shifting definitions of liberation represent provocative spaces for critical inquiry and personal discovery ultimately generating novel ways of imagining and reimagining power pleasure and resistance *Male Sexuality* Michael Bader, 2009 At first glance the sexual male seems easy to understand but beneath the surface lie complexities that disrupt lives and relationships Respected psychologist Michael Bader takes an honest look at the nuances of male sexuality addressing issues such as sexual boredom *intern "Nagging" Questions* Dana E. Bushnell, 1995 In this anthology of new and classic articles fifteen noted feminist philosophers explore contemporary ethical issues that uniquely affect the lives of women These issues in applied ethics include autonomy responsibility sexual harassment women in the military new technologies for reproduction surrogate motherhood pornography abortion nonfeminist women and others Whether generated by old social standards or intensified by recent technology these dilemmas all pose persistent nagging questions that cry out for answers Unlike other anthologies in feminist ethics this book encourages critical thinking about concrete contemporary social and moral issues Each engaging clearly written article is followed by discussion questions making the book useful for students of women's studies philosophy sociology and political science *Sexual Shame* Karen A. McClintock, The trauma of sexual shame has widespread implications not just for individuals but also for institutions communities and even churches This book provides pastors and congregational leaders with the tools to identify the assumptions behaviors and structures that promote while masking sexual shame and to begin healing sexual shame both individually and corporately Questions for reflection are included at the end of each chapter making this an ideal book for both private use and group discussion BACK COVER

Extravagant Abjection Darieck Scott, 2010-07-01 Part of the American Literatures Initiative Series 2011 Winner of the Alan Bray Memorial Book Award presented by the Modern Language Association Challenging the conception of empowerment associated with the Black Power Movement and its political and intellectual legacies in the present Darieck Scott contends that power can be found not only in martial resistance but surprisingly where the black body has been inflicted with harm or humiliation Theorizing the relation between blackness and abjection by foregrounding often neglected depictions of the sexual exploitation and humiliation of men in works by James Weldon Johnson Toni Morrison Amiri Baraka and Samuel R Delany *Extravagant Abjection* asks If we're racialized through domination and abjection what is the political

personal and psychological potential in racialization through abjection Using the figure of male rape as a lens through which to examine this question Scott argues that blackness in relation to abjection endows its inheritors with a form of counter intuitive power indeed what can be thought of as a revised notion of black power This power is found at the point at which ego identity body race and nation seem to reveal themselves as utterly penetrated and compromised without defensible boundary Yet in Extravagant Abjection power assumes an unexpected and paradoxical form In arguing that blackness endows its inheritors with a surprising form of counter intuitive power as a resource for the political present found at the very point of violation Extravagant Abjection enriches our understanding of the construction of black male identity
