Colangelo, 2021-11-09 *Diaphanous Bodies* Ability Disability and Modernist Irish Literature examines ability as a category of embodiment and embodied experience and in the process opens up a new area of inquiry in the growing field of literary disability studies It argues that the construction of ability arises through a process of exclusion and forgetting in which the depiction of sensory information and epistemological judgment subtly or sometimes un subtly elide the fact of embodied subjectivity The result is what Colangelo calls the myth of the diaphanous abled body a fiction that holds that an abled body is one which does not participate in or situate experience The diaphanous abled body underwrites the myth that abled and disabled constitute two distinct categories of being rather than points on a constantly shifting continuum In any system of marginalization the dominant identity always sets itself up as epistemologically and experientially superior to whichever group it separates itself from Indeed the norm is always most powerful when it is understood as an empty category or a view from nowhere *Diaphanous Bodies* explores the phantom body that underwrites the artificial dichotomy between abled and disabled upon which the representation of embodied experience depends      **The Big Game of Africa** Richard Tjader, 1910

*Ireland's Great Famine, Britain's Great Failure* William H. A. Williams, 2022-02-08 This book provides readers with a unique in depth understanding of the background to the Irish Famine and a detailed account of the crisis as well as the immediate and long term results of the catastrophe In addition to exploring the ecological and agriculture factors this work shows how cultural economic and political influences shaped British attitudes and policies When the entire potato crop failed in the fall of 1846 what began as an ecological disaster quickly became a political one Hampered by long standing prejudice and Anglo Irish tensions the British government's various attempts to deal with the humanitarian crisis were muddled by competing economic and social goals Among these was the idea that the Famine represented an opportunity to purge Ireland of fragmented land holding and potato dependency by encouraging an English type market driven agriculture Changes did occur but the government's imperial dreams eventually ran up against Irish realities

debates over the impact of so many new arrivals the accompanying problems of disease destitution mental illness death and burial the stories of orphaned children and expressions of famine memory The worst demographic catastrophe in nineteenth century Europe inspired generations of political writings artistic and literary endeavours and commemorative practices and it was woven into narratives of Irish nationalism and the founding of Canada Canada and the Great Irish Famine provides a new perspective on the social outcomes of Ireland's famine migration as well as on the resilience and adaptability of the receiving communities and the migrants themselves The Great Famine Ciarán Ó Murchadha, 2011-06-02 Over one million people died in the Great Famine and more than one million more emigrated on the coffin ships to America and beyond Drawing on contemporary eyewitness accounts and diaries the book charts the arrival of the potato blight in 1845 and the total destruction of the harvests in 1846 which brought a sense of numbing shock to the populace Far from meeting the relief needs of the poor the Liberal public works programme was a first example of how relief policies would themselves lead to mortality Workhouses were swamped with thousands who had subsisted on public works and soup kitchens earlier and who now gathered in ragged crowds Unable to cope workhouse staff were forced to witness hundreds die where they lay outside the walls The next phase of degradation was the clearances or exterminations in popular parlance which took place on a colossal scale From late 1847 an exodus had begun The Famine slowly came to an end from late 1849 but the longer term consequences were to reverberate through future decades *This Great Calamity: The Great Irish Famine* Christine Kinealy, 2006-05-02 The Great Famine of 1845-52 was the most decisive event in the history of modern Ireland In a country of eight million people the Famine caused the death of approximately one million while a similar number were forced to emigrate The Irish population fell to just over four million by the beginning of the twentieth century Christine Kinealy's survey is long established as the most complete scholarly survey of the Great Famine yet produced First published in 1994 This Great Calamity remains an exhaustive and indefatigable look into the event that defined Ireland as we know it today
