God's Plagiarist R. Howard Bloch, 1995-09-15 *God's Plagiarist* is an entertaining account of the abbe Jacques Paul Migne, one of the great entrepreneurs of the nineteenth century. A priest in Orleans from 1824 to 1833, Migne then moved to Paris where, in the space of a decade, he built one of the most extensive publishing ventures of all time. How did he do it? Migne harnessed a deep well of personal energy and a will of iron to the latest innovations in print technology, advertising, and merchandising. His assembly line production and innovative marketing of the massive editions of the Church Fathers placed him at the forefront of France's new commerce. Characterized by the police as one of the great schemers of the century, this priest-entrepreneur put the most questionable of business practices in the service of his devotion to Catholicism. Part detective novel, part morality tale, Bloch's narrative not only will interest scholars of nineteenth-century French intellectual history but will appeal also to general readers interested in the history of publishing or just a good historical yarn. An unforgettable Daumier-like portrait, sharp and satirical of this enterprising, austere, and somewhat crazed merchandiser of sacred learning, Bloch deserves great credit for the wit and style of his effort to explore the Pedantic Park of nineteenth-century learning, that island of monsters which scholars have found as yet no escape.

Anthony Grafton, *New Republic*. Bloch is an exhilarating guide to the methods which made Migne the Napoleon of the Prospectus, a publicist of genius. Buffalo Bill and P. T. Barnum rolled into one. *David Coward Times Literary Supplement*. Mercifully, Bloch's sense of humour has none of that condescending mock bewilderment commonly applied to the foreign or ancient. It enables Bloch to promote Migne as a forerunner of the department store and to place him on a continuum running from St Paul to the Tupperware party, the quality of the merchandise is increasingly irrelevant, still more the nature of its contents.

Graham Robb, *London Review of Books*.

The illusion of the Burgundian state Élodie Lecuppre-Desjardin, 2022-01-25 On 25 January 1474 Charles the Bold, duke of Burgundy, appeared before his subjects in Dijon. Robed in silk, gold, and precious jewels and wearing a headpiece

that gave the illusion of a crown he made a speech in which he cryptically expressed his desire to become a king Three years later Charles was killed at the battle of Nancy an event that plunged the Great Principality of Burgundy into chaos This book innovative and essential not only explores Burgundian history and historiography but offers a complete synthesis about the nature of politics in this region considered both from the north and the south Focusing on political ideologies a number of important issues are raised relating to the medieval state the signification of the nation under the Ancien Regime the role of warfare in the creation of political power and the impact of political loyalties in the exercise of government In doing so the book challenges a number of existing ideas about the Burgundian state *Twelve Examples of Illusion* Jan

Westerhoff,2010-09-23 The book is a popular discussion of different kinds of illusion from the perspectives of philosophy cognitive science and Buddhist thought The book discusses examples of illusion magical tricks dreams rainbows reflections in a mirror by following a famous Tibetan list of twelve examples of illusion from an 18th century Buddhist encyclopedia

Beowulf and the Illusion of History John F. Vickrey,2009 Most Beowulf scholars have held either that the poems minor episodes are more or less based on incidents in Scandinavian history or at least that they entail nothing of the fabulous or monstrous Beowulf and the Illusion of History contends that like the poem s Grendelkin episodes certain minor episodes involve monsters and contain motifs of the Bear s Son folktale In the Finn Episode the monsters are to be taken as physically present in the story as we have it while in the mention of the hero s fight with Daeghrefn and perhaps in the accounts of the fight with Ongenbeow the principal foes though originally monsters appear now more like ordinary humans The inference permits the elucidation of passages hitherto obscure and indicates that the capability of the Beowulf poet as a maker is greater than has been thought John F Vickrey is Professor of English Emeritus at Lehigh University The Gene Illusion Jay

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. the Thousand and One Nights or writers e.g. Ibsen Proust but the majority offer a critical overview of a genre e.g. Chinese poetry Spanish Golden Age drama or of a national literature e.g. Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

Hallucinations and Illusions Edmund Parish, 1897

The Illusion of the End Jean Baudrillard, 1994 The year 2000 the end of the millennium is this anything other than a mirage the illusion of an end like so many other imaginary endpoints which have littered the path of history In this remarkable book Jean Baudrillard France's leading theorist of postmodernity argues that the notion of the end is part of the fantasy of a linear history Today we are not approaching the end of history but moving into reverse into a process of systematic obliteration We are wiping out the entire twentieth century effacing all signs of the cold War one by one perhaps even the signs of the First and Second World Wars and of the political and ideological revolutions of our time In short we are engaged in a gigantic process of historical revisionism and we seem in a hurry to finish it before the end of the century secretly hoping perhaps to be able to begin again from scratch Baudrillard explores the fatal strategies of time which shape our ways of thinking about history and its imaginary end Ranging from the revolutions in Eastern Europe to the Gulf War from the transformation of nature to the hyper reality of the media this postmodern mediation on modernity and its aftermath will be widely read

Error, Illusion, Madness Bento Prado, Jr., 2021-03-11 This book makes available in English the work of one of the most important Brazilian philosophers and intellectuals of the twentieth century First published in 2004 Error Illusion Madness is an original contribution to the debate about the nature and role of the subject and its forms of expression In a context where the category of the subject was being at once dismissed by structuralist and post structuralist thinkers and sidelined by the intersubjective turn of critical theory Bento Prado Jr s book represented a unique intellectual intervention He mobilized authors as diverse as Wittgenstein and Deleuze to formulate a notion of the subject as both a critique of identity and an affirmation of difference a notion that dismantled the foundational character usually associated with this category In this way Bento Prado Jr opened up a new and distinctive kind of critical thinking that emphasized subjectivity while avoiding both foundationalism and relativism This important book will be of great interest to those working in philosophy critical theory cultural theory and Latin American studies

From the Edge Allison E. Fagan, 2016-07-14 Chicana o literature frequently depicts characters who exist in a vulnerable liminal space living on the border between Mexican and American identities and sometimes pushed to the edge by authorities who seek to restrict their freedom As this groundbreaking new study reveals the books themselves have occupied similarly precarious positions as Chicana o literature has struggled for economic viability and visibility on the margins of the American publishing industry while Chicana o writers have grappled with editorial practices that compromise their creative autonomy From the Edge reveals the tangled textual histories behind some of the most cherished works in the Chicana o literary canon tracing the negotiations between authors editors and publishers that determined how these books appeared in print Allison Fagan demonstrates how the texts surrounding the authors words from editorial prefaces to Spanish language glossaries from cover illustrations to reviewers blurbs have crucially shaped the reception of Chicana o literature To gain an even richer perspective on the politics of print she ultimately explores one more border space studying the marks and remarks that readers have left in the margins of these books From the Edge vividly demonstrates that to comprehend fully the roles that ethnicity language class and gender play within Chicana o literature we must understand the material conditions that governed the production publication and reception of these works By teaching us how to read the borders of the text it demonstrates how we might perceive and preserve the faint traces of those on the margins
