Portraying the Aztec Past Angela Herren Rajagopalan,2018-12-12 During the period of Aztec expansion and empire ca 1325 1525 scribes of high social standing used a pictographic writing system to paint hundreds of manuscripts detailing myriad aspects of life including historical calendric and religious information Following the Spanish conquest native and mestizo tlacuiloque artist scribes of the sixteenth century continued to use pre Hispanic pictorial writing systems to record information about native culture Three of these manuscripts Codex Boturini Codex Azcatitlan and Codex Aubin document the origin and migration of the Mexica people one of several indigenous groups often collectively referred to as Aztec In Portraying the Aztec Past Angela Herren Rajagopalan offers a thorough study of these closely linked manuscripts articulating their narrative and formal connections and examining differences in format style and communicative strategies Through analyses that focus on the materials stylistic traits facture and narrative qualities of the codices she places these annals in their historical and social contexts Her work adds to our understanding of the production and function of these manuscripts and explores how Mexica identity is presented and framed after the conquest

Thy Father's Instruction Naomi Feuchtwanger-Sarig,2021-12-06 The Nuremberg Miscellany Germanisches Nationalmuseum N rnberg Bibliothek 8 Hs 7058 Rl 203 is a unique work of scribal art and illumination Its costly parchment leaves are richly adorned and illustrated with multicolour paint and powdered gold It was penned and illustrated in southern Germany probably Swabia in 1589 and is signed by a certain Eliezer b Mordechai the Martyr The Miscellany is a relatively thin manuscript In its present state it holds a total of 46 folios 44 of which are part of the original codex and an additional bifolio that was attached to it immediately or soon after its production The book is a compilation of various Hebrew texts most of which pertain to religious life Others are home liturgies Biblical exegeses comments on rites and customs moralistic texts homiletic and ethical discourses and an extensive collection of home liturgies its major part being dedicated to the life cycle The unparalleled text compilation of the Nuremberg Miscellany on the one hand and the naive untrained illustrations on the other hand are puzzling Its illustrations are hardly mindful of volume depth or perspective and their folk art nature suggests that an unprofessional artist possibly

even the scribe himself may have executed them Whoever the illustrator was his vast knowledge of Jewish lore unfolds layer after layer in a most intricate way His sharp eye for detail renders the images he executed a valid representation of contemporary visual culture The iconography of the Nuremberg Miscellany with its 55 decorated leaves featuring 25 text illustrations falls into two main categories biblical themes and depictions of daily life both sacred and mundane While the biblical illustrations rely largely on artistic rendering and interpretation of texts the depictions of daily life are founded mainly on current furnishings and accoutrements in Jewish homes The customs and rituals portrayed in the miscellany attest not only to the local Jewish Minhag but also to the influence and adaptation of local Germanic or Christian rites They thus offer first hand insights to the interrelations between the Jews and their neighbors Examined as historical documents the images in the Nuremberg Miscellany are an invaluable resource for reconstructing Jewish daily life in Ashkenaz in the early modern period In a period from which only scanty relics of Jewish material culture have survived retrieving the pictorial data from images incorporated in literary sources is of vital importance in providing the missing link Corroborated by similar objects from the host society and with descriptions in contemporary Jewish and Christian written sources the household objects as well as the ceremonial implements depicted in the manuscript can serve as effective mirrors for the material culture of an affluent German Jewish family in the Early Modern period The complete Nuremberg Miscellany is reproduced in the appendix of this book

Whether it was lauding the magnificence of court warning against the vanity of fashion describing the latest modes or decrying the habit of the lower orders to ape the dress of their social superiors people throughout history have been fascinated by the symbolism power and messages that clothes can project Yet despite this contemporary interest clothing as a subject of historical enquiry has been a largely neglected field of academic study Whilst it has been discussed in relation to various disciplines it has not in many cases found a place as a central topic of analysis in its own right The essays presented in this volume form part of a growing recent trend to put fashion and clothing back into the centre ground of historical research From Russia to Rome Ireland to France this volume contains a wealth of examples of the numerous ways clothing was shaped by and helped to shape medieval and early modern European society Furthermore it demonstrates how the study of clothing can illuminate other facets of life and why it deserves to be treated as a central rather than peripheral facet of European history
