Practical Treatment Options for Chronic Pain in Children and Adolescents Michael Dobe, Boris

Zernikow, 2019-08-30 Pain is an increasingly common symptom in children and adolescents. Once recurrent pain leads to pain-related disability that affects a child's functional, emotional, and social well-being, it is considered a chronic pain disorder. Such disorders can develop as the primary condition or be due to a well-defined underlying physical condition such as migraine or juvenile idiopathic arthritis. Approximately 5% of the paediatric population suffers from a severe chronic pain disorder. Its treatment in childhood and adolescence is complex and needs to address a variety of biological, psychological, and social influencing factors. This treatment manual describes the inpatient treatment programme of one of the world's largest inpatient treatment facilities for chronic pain management in children and adolescents, the German Paediatric Pain Centre. The guidance provided is also applicable to outpatient pain management or day hospital approaches. The manual examines the epidemiology, aetiology, diagnostics, and treatment principles in detail, explains the criteria for inpatient treatment, and describes the structure and organisation of a tertiary treatment centre for chronic pain. It also presents therapeutic interventions such as dealing with Black Thoughts, Distraction, ABC Stress, Day and the Pain Provocation Technique, with the aid of numerous examples of pain management and health care from a clinical perspective. Lastly, it discusses the special features of pain treatment for children and adolescents with comorbid psychological disorders, family difficulties, or defined somatic diseases, as well as pharmacological and interventional treatment options.

Gilbert and Gubar's The Madwoman in the Attic after Thirty Years Annette R. Federico, 2011-01-25 When it was published in 1979, Sandra M. Gilbert and Susan Gubar's *The Madwoman in the Attic: The Woman Writer and the Nineteenth Century Literary Imagination* was hailed as a pathbreaking work of criticism, changing the way future scholars would read Jane Austen, Mary Shelley, the Brontës, George Eliot, and Emily Dickinson. This thirtieth anniversary collection adds both valuable reassessments and new readings and analyses inspired by Gilbert and Gubar's approach. It includes work by established and up-and-coming

scholars as well as retrospective accounts of the ways in which *The Madwoman in the Attic* has influenced teaching feminist activism and the lives of women in academia These contributions represent both the diversity of today's feminist criticism and the tremendous expansion of the nineteenth century canon The authors take as their subjects specific nineteenth and twentieth century women writers the state of feminist theory and pedagogy genre studies film race and postcolonialism with approaches ranging from ecofeminism to psychoanalysis And although each essay opens *Madwoman* to a different page all provocatively circle back with admiration and respect objections and challenges questions and arguments to Gilbert and Gubar's groundbreaking work The essays are as diverse as they are provocative Susan Fraiman describes how *Madwoman* opened the canon politicized critical practice and challenged compulsory heterosexuality while Marlene Tromp tells how it elegantly embodied many concerns central to second wave feminism Other chapters consider *Madwoman*'s impact on Milton studies on cinematic adaptations of *Wuthering Heights* and on reassessments of Ann Radcliffe as one of the book's suppressed foremothers In the thirty years since its publication *The Madwoman in the Attic* has potently informed literary criticism of women's writing its strategic analyses of canonical works and its insights into the interconnections between social environment and human creativity have been absorbed by contemporary critical practices These essays constitute substantive interventions into established debates and ongoing questions among scholars concerned with defining third wave feminism showing that as a feminist symbol the raging madwoman still has the power to disrupt conventional ideas about gender myth sexuality and the literary imagination

System Recall Alma Harris, Michelle S. Jones, 2019-10-17 This book argues that much of what passes as contemporary educational reform in education is faulty and damaging It argues that it is time for a system recall and a need to look at what matters most in the pursuit of educational goals The book focuses on what we know about contemporary educational improvement transformation and change It will provide insights into what strategies work long term to build the capacity for principled change at the school and system level The book will consider what leaders can do to secure principled school and system improvement which fully embraces diversity equity and equality It will also dispel some myths about reform at scale and challenge some prevailing ideas about educational change that it will be posited are not helping many young people to reach their potential The main argument of the book is that too many school and system improvement initiatives have not paid sufficient attention to equity issues in their pursuit of ever higher achievement and that the net effect of large scale international assessments have been to distract policy makers in ways that have not always benefitted young people The book will use system examples to underpin and exemplify six core ways of re-booting the system and generating progress for all It will highlight the implications for school and system leaders
