**The Financing of John Wesley's Methodism c.1740-1800** Clive Murray Norris, 2017-02-09 The dominant activities of the eighteenth century Wesleyan Methodist Connexion in terms of expenditure were the support of itinerant

preaching and the construction and maintenance of preaching houses These were supported by a range of both regular and occasional flows of funds primarily from members contributions gifts from supporters various forms of debt finance and profits from the Book Room Three other areas of action also had significant financial implications for the movement education welfare and missions The Financing of John Wesley s Methodism c 1740 1800 describes what these activities cost and how the money required was raised and managed Though much of the discussion is informed by financial and other quantitative data Clive Norris examines a myriad of human struggles and the conflict experienced by many early Wesleyan Methodists between their desire to spread the Gospel and the limitations of their personal and collective resources He describes the struggle between what Methodists saw as the promptings of Holy Spirit and their daily confrontation with reality not least the financial constraints which they faced The Commodification of Farm Animals Sophie

Riley,2022-02-15 This book examines how the developments in veterinary science philosophy economics and law converged during the nineteenth and early twentieth centuries to entrench farm animals along a commodification pathway It covers two neglected areas of study the importance of international veterinary conferences to domestic regimes and the influence of early global treaties that dealt with animal health on domestic quarantine measures The author concludes by arguing that society needs to reconsider its understanding and the place of the welfare paradigm in animal production systems As it presently stands this paradigm can be used to justify almost any self serving reason to abrogate ethical principles The topic of this book will appeal to a wide readership not only scholars students and educators but also people involved in animal production interested parties and experts in the animal welfare and animal rights sector as well as policy makers and regulators who will find this work informative and thought provoking **Monumental London** Richard Barras,2023-10-26

*Power to the People* Astrid Kander, Paolo Malanima, Paul Warde, 2015-12-29 *Power to the People* examines the varied but interconnected relationships between energy consumption and economic development in Europe over the last five centuries It describes how the traditional energy economy of medieval and early modern Europe was marked by stable or falling per capita energy consumption and how the First Industrial Revolution in the eighteenth century fueled by coal and steam engines redrew the economic social and geopolitical map of Europe and the world The Second Industrial Revolution continued this energy expansion and social transformation through the use of oil and electricity but after 1970 Europe entered a new stage in which energy consumption has stabilized This book challenges the view that the outsourcing of heavy industry overseas is the cause arguing that a Third Industrial Revolution driven by new information and communication technologies has played a major stabilizing role *Power to the People* offers new perspectives on the challenges posed today by climate change and peak oil demonstrating that although the path of modern economic development has vastly increased our energy use it has not been a story of ever rising and continuous consumption The book sheds light on the often lengthy and complex changes needed for new energy systems to emerge the role of energy resources in economic growth and the importance of energy efficiency in promoting growth and reducing future energy demand

Kent, 2024-12-11 In 1842 the Qing Empire signed a watershed commercial treaty with Great Britain beginning a century long period in which geopolitical and global economic entanglements intruded on Qing territory and governance Previously understood as an era of semi colonialism Stacie A Kent reframes this century of intervention by shedding light on the generative force of global capital Based on extensive research conducted with British and Chinese government archives

Coercive Commerce shows how commercial treaties and the regulatory regime that grew out of them catalyzed a revised arts of governance in Qing administered China Capital which had long been present in Chinese merchants pocket books came to shape and even govern Chinese statecraft during the treaty era This book contends that Qing administrators alternately resisted and adapted to this new reality through taxation systems such as transit passes and the Imperial Maritime Customs Service by reorganizing Chinese territory into space where global circuits of capital could circulate and reproduce at ever greater scale Offering a deep dive into the coercive nature of capitalism and the historically specific ways global capital reproduction took root in Qing China this book will interest historians of capital and modern China alike This book delivers on its promise to recast how Qing China was impacted by nineteenth century imperialism By including treaties commercial statistics and tax regulation to the list of technologies designed to coercively incorporate China into a globalized capitalist economy Kent expertly uncovers hidden forces that utterly transformed the Qing empire C Patterson Giersch Wellesley College This is a wonderfully original study that rethinks the history of capitalist transformation in nineteenth century China through the lens of capital s circulatory needs and its viral effects on the practices norms and institutions of commercial governance Andrew Sartori New York University
