The Cardinal June Osborne:

The Cardinal June Osborne, 2010-07-22 This informative guide follows a year in the life of the Northern Cardinal with evocative text and gorgeous color photography Author June Osborne and photographer Barbara Garland capture the beauty and intrigue of this striking songbird They describe how cardinals stake out territory and choose mates find a nesting site and incubate their eggs feed the young and prepare them for full fledged independence The Cardinal also explores the special relationship that humans have with their favorite redbirds Osborne traces the symbolic use of cardinals as state birds and athletic mascots and shows how they appear on everything from postage stamps to Christmas cards as well as in fine art literature and Native American folklore *The Cardinal* June Osborne, Barbara Garland, 1995-01-01 The author follows a

year in the life of the Northern Cardinal with fact filled text and glowing color photographs Full of intriguing facts the book also recounts how cardinals cope with predators and parasites serve as surrogate parents for other species and survive adverse weather and shortages of food For backyard bird watchers she suggests ways to attract cardinals and gives recipes for cardinal foods Naturally . . . South Texas Roland H. Wauer, 2010-07-22 The Golden Crescent of South Texas a fifteen

county region along and inland from the middle Gulf Coast is often called the Crossroads because of its natural diversity Located in the heart of the Gulf Coast Prairie and Marshes the area also encompasses the trailing edges of the South Texas Plains Post Oak Savannah and Blackland Prairie This confluence of ecological zones makes it a wonderful place for birding and for observing the changing face of nature especially during seasonal transitions In this book Ro Wauer describes a typical year in the natural life of South Texas Using selected entries from his weekly column in the Victoria Advocate newspaper he discusses numerous topics for each month from the first appearance of butterflies in January to alligators making a comeback in July to the Christmas bird count in December His observations are filled with intriguing natural history lore from what sounds mockingbirds will imitate almost any noise in their neighborhood to how armadillos swim by inflating themselves to increase their buoyancy *The Purple Martin* Robin W. Doughty, Rob Fergus, 2002 One of the surest

harbingers of spring is the return of Purple Martins to the houses that people put up across the United States to attract these companionable birds The bustle of courting rearing nestlings and fledging young martins fills the summer months until approaching autumn lures the martins to their winter range in South America Then human landlords refurbish their martin houses and wait for another round of this much anticipated yearly cycle Robin Doughty and Rob Fergus here present a concise natural history of the bird and its centuries long companionship with people They discuss the martin s scientific classification and names its migration and range and its family life They relate stories of how Native Americans and European colonists attracted Purple Martins and how Americans throughout the nineteenth and twentieth centuries helped martins survive the loss of natural nesting sites by providing houses for them Heralds of Spring in Texas Roland H.

Wauer, 1999 We know by the calendar when springs officially begins but how does nature tell us spring has come In Heralds

of Spring in Texas Roland H Wauer walks us through Texas from the Rio Grands to the panhandle as spring arrives **The Mockingbird** Robin W.
