abstrusely theoretical approaches to translation this book sets out to show through detailed and lively analysis what it really
means to translate literary style Combining linguistic and lit crit approaches it proceeds through a series of interconnected
chapters to analyse translations of the works of D H Lawrence Virginia Woolf James Joyce Samuel Beckett Henry Green and
Barbara Pym Each chapter thus becomes an illuminating critical essay on the author concerned showing how divergences
between original and translation tend to be of a different kind for each author depending on the nature of his or her
inspiration This new and thoroughly revised edition introduces a system of back translation that now makes Tim Parks highly
praised book reader friendly even for those with little or no Italian An entirely new final chapter considers the profound
effects that globalization and the search for an immediate international readership is having on both literary translation and
