Inheriting As People Think It Should Be Jacqueline J. Goodnow, Jeanette A. Lawrence, 2013-06-01 What obligations to each other do people have or think they have That question comes up in relation to family and marriage relationships to law and to moral reasoning This novel and highly readable book takes it up in relation to inheritances to what people think they should leave or be left who should receive what when how and why Making the book novel is its range Here are views about more than money Covered are also houses land and an often neglected but emotion laden area the personal and often indivisible things that mean one is remembered as an individual Making it novel also is its emphasis throughout on meanings and on what people see as matters of choice or flexibility Even in countries where the legal codes specify who should receive what after death many European and most Islamic codes allow far less choice than British based law does people still have room for decisions about what they give away to various heirs or spend before death What makes the book highly readable One reason is its timeliness Currently lively for example are debates over parents balancing their own needs and wishes against those of their children spending the kids inheritance in one description Another is the book s style The writing is straightforward Theory is not neglected but there is an absence of jargon The material is also mostly based on narratives on people s own descriptions of arrangements that worked well or did not work well and on why they thought so That base makes the book far from dry and far from being an account only of negative feelings objections challenges and family rifts It also makes it more relevant at times of indecision or misunderstanding In short a book for many readers both within the social sciences and beyond it
