How Bad Are Bananas? Mike Berners-Lee, 2020-09-03 It is terrific I can't remember the last time I read a book that was more fascinating and useful and enjoyable all at the same time Bill Bryson *How Bad Are Bananas* was a groundbreaking book when first published in 2009 when most of us were hearing the phrase carbon footprint for the first time Mike Berners-Lee set out to inform us what was important aviation heating swimming pools and what made very little difference bananas naturally packaged are good This new edition updates all the figures from data centres to hosting a World Cup and introduces many areas that have become a regular part of modern life

Twitter the Cloud Bitcoin electric bikes and cars even space tourism Berners Lee runs a considered eye over each area and gives us the figures to manage and reduce our own carbon footprint as well as to lobby our companies businesses and government His findings presented in clear and even entertaining prose are often surprising And they are essential if we are to address climate change If I Could Hold You Again Collette Wolfe,2019-05-23 A long distance call while on holidays brought news of the most devastating kind for Collette Wolfe and her husband Anthony Their daughter Leanne had died having taken her own life Soon diaries were uncovered sharing her experience of horrific bullying in the years leading up to her death In the months that followed Collette battled crippling grief and guilt for not having know the extent of her daughter s suffering Beset by hopelessness as demons from her own childhood resurfaced she faced her darkest hour Then something remarkable happened If I Could Hold You Again is a story of tragedy and redemption and of finding a way to face the future with courage love and a mission to help others **Innovation Management** Jan van den Ende,2021-10-01 Not solely covering new products Innovation Management focuses on new services and new business models in doing so it provides an introduction to new business development The book follows the logic of the innovation process from idea development via selection to implementation and discusses these topics both on the level of the company and individual projects Its content is evidence based but with many practical examples This textbook ensures up to date subject knowledge by providing a contemporary approach novel methodologies such as design thinking lean innovation and open innovation are included Exercises and discussion questions at the end of each chapter enable self testing and reflection Comprehension of new topics is aided by an in margin glossary and further multimedia links on the companion website [bloomsburyonline.com/resources/innovation-management](https://www.bloomsburyonline.com/resources/innovation-management) It is an essential resource for undergraduate students seeking a rigorous and science based yet accessible and manageable overview of innovation management *Methodologies and Technologies for Networked Enterprises* Giuseppe Anastasi,Emilio Bellini,Di Nitto Elisabetta,Carlo Ghezzi,Letizia Tanca,Eugenio Zimeo,2012-07-30 The need for flexibility and globalization forces enterprises to decentralize their activities and continuously re structure their networks of relationships regarding both their productive supply chains and their design and innovation processes The goal of the ArtDeco project funded by the Italian Ministry of Education and Scientific Research under the FIRB program funding for basic research has been to address these issues by proposing solutions from three main perspectives the organizational perspective aimed at studying how companies work in a network and how their design processes can benefit from collaboration with other companies the informational perspective focusing on how to acquire relevant knowledge from unstructured information and processes and on how to organize and manage such knowledge and the infrastructural perspective focusing on understanding how self adaptive workflows and software systems can help in supporting the dynamic interconnection of enterprises The book contains a collection of papers offering an overview of the main results produced by the ArtDeco project It has been structured into the following four main parts organizational issues

methodologies empirical contexts and policies software methodologies and technologies knowledge elicitation and management and management of peripheral devices It also includes a case study used throughout the book as a reference example
