**Scientific and Technical Aerospace Reports** ,1986-05      **Solaris 8 Administrator's Guide** Paul A. Watters,2002-01-22 The Solaris operating system along with related Sun products likeJava is one of the most reliable and scalable platforms on which to build e commerce products and on which to support all networked services Yet one problem that potential users face is finding out more information about what Solaris offers In a sense they want to know how much technical work is involved in migrating to Solaris and what kind of philosophy Solaris is based on To answer these questions Solaris 8 Administrator's Guide covers all aspects of deploying Solaris as a network server including both basic and advanced network services Given newfound interest in Solaris as an enterprise network operating system this guide is aimed squarely at supporting enterprise level services It's written for experienced network administrators who want an objective guide to networking with Solaris and covers installation on both the Intel and Sparc platforms With it you will learn how to setup Solaris as a file server application server and database server In its coverage of advanced topics Solaris 8 Administrator's Guide offers examples of configuration files and the installation of third party software packages This comprehensive book also contains more conceptual and difficult material that is absent from other Solaris reference manuals At all points emphasis is placed on issues like evaluating the security scalability and reliability of specific software packages at the expense of providing detailed coverage of every available package The book covers the practical experience and new skills needed to understand the impact of new services and new software products on existing server systems Author Paul Watters a recognized authority on Solaris avoids so called historical services like UUCP which can easily fill chapters but are not commonly found in today's production environments Indeed he doesn't bother to provide an in depth history of Solaris or UNIX at all assuming that you can find this material elsewhere Instead the practical focus is on supporting relevant contemporary networking technologies Solaris 8 Administrator's Guide provides you with a third party view that not only praises Solaris but is critical and realistic in its assessment This book is for experienced Solaris Administrators as well as and

those looking to migrate to this operating system      The Leadership Partnership Daryl Fischer,, Laura B. Roberts, 2018-04-05

The Leadership Partnership is volume two in the Museum Trustee Association's Templates for Trustees series. The book and customizable web-based templates feature tools that help boards to consider their options, identify their priorities, and plan their actions at this critical moment in a museum's life cycle. In addition to the manual and on-line website, purchasers have access to the ongoing assistance of MTA staff. As nonprofit management becomes more challenging, thinking about the relationship between the board and the director is evolving. The bright line between the board's responsibility for policy and the staff's responsibility for management is blurring. The Leadership Partnership explores and supports this critical partnership between the executive director and the board and helps leadership develop strategies and approaches appropriate for the individual institution. A series of online surveys allows board members to look at their own performance, that of the board as a whole, and that of the executive director across ten critical areas of museum management: mission, vision, and strategy; professional development; board operations; individual relationships; oversight; finances and fundraising; collections; facilities; and public engagement. The final template guides users into turning the findings from the surveys into a leadership plan to be presented and discussed with the board.
