and European Integration A. J. Jacobs, 2019-08-07 This book chronicles the divergent growth trends in car production in Belgium and Spain. It delves into how European integration, high wages and the demise of GM and Ford led to plant closings in Belgium. Next, it investigates how lower wages and the expansion strategies of Western European automakers stimulated expansion in the Spanish auto industry. Finally, it offers three alternate scenarios regarding how further EU expansion and Brexit may potentially reshape the geographic footprint of European car production over the next ten years. In sum, this book utilizes history to help expand the knowledge of scholars and policymakers regarding how European integration and Brexit may impact future auto industry investment for all EU nations. *Skeleton in the Closet* Alejandra O. Advertising and publicity have proven to be extremely effective. Television ads glamorize and popularize rail-thin models and actresses. Images have a mesmerizing affective influence on our young teenagers and our self-images. The younger the age, the more influence and the more damage the advertising has on youngsters. Food becomes an object of evil that will make you ugly. The only way to be beautiful is to be skinny. Obsession becomes compulsion and then it's an addiction that completely takes over the person. Self-control is gone and the person becomes the subject of a monster: the desire to be a skeleton.
