After Virginia Tech Thomas P. Kapsidelis, 2019-04-16 In what has become the era of the mass shooting we are routinely taken to scenes of terrible violence Often neglected however is the long aftermath including the efforts to effect change in the wake of such tragedies On April 16 2007 thirty two Virginia Tech students and professors were murdered Then the nation s deadliest mass shooting by a lone gunman the tragedy sparked an international debate on gun culture in the United States and safety on college campuses Experiencing profound grief and trauma and struggling to heal both physically and emotionally many of the survivors from Virginia Tech and their supporters put themselves on the front lines to advocate for change Yet since that April large scale gun violence has continued at a horrifying pace In *After Virginia Tech* award winning journalist Thomas Kapsidelis examines the decade after the Virginia Tech massacre through the experiences of survivors and community members who have advocated for reforms in gun safety campus security trauma recovery and mental health Undaunted by the expansion of gun rights they have continued their national leadership despite an often hostile political environment and repeated mass violence Kapsidelis also focuses on the trauma suffered by police who responded to the shootings and the work by chaplains and a longtime police officer to create an organization dedicated to recovery The stories Kapsidelis tells here show how people and communities affected by profound loss ultimately persevere long after the initial glare and attention inevitably fade Reaching beyond policy implications *After Virginia Tech* illuminates personal accounts of recovery and resilience that can offer a ray of hope to millions of Americans concerned about the consequences of gun violence

There is a Gunman on Campus Ben Agger, Timothy W. Luke, 2008-03-27 In our media saturated culture momentous events occur quickly as news and images are broadcast around the country and the world We are often riveted by the news and our everyday reality is suddenly changed Yet almost as quickly that critical event is replaced by a new story The old event fades from memory and we move on to the next thing before understanding why it commanded our attention and how our world was changed On April 16 2007 such an event occurred on the Virginia Tech campus in Blacksburg Virginia That day a student killed 32 of his classmates and professors and then turned the gun on himself The media focused their power and our attention on the campus the students and faculty of Virginia Tech and the gunman and his victims But we have yet to understand fully what happened in Blacksburg There is a Gunman on Campus brings our thoughts back to the shocking campus shootings and the public reactions to the event shining needed light on what occurred at the university how American society reacted and how it all fits into contemporary culture The contributors to this insightful and compelling volume preserve and deepen our memory of April 16th Many of the authors are distinguished men and women of letters and some were on the Virginia Tech campus the day when the shots rang out From the psychology of the shooter to the role of media in covering the event to parallels to other American tragedies such as Columbine the chapters constitute an incisive portrait of early 21st century America

No Right to Remain Silent Lucinda Roy, 2010-03-30 The world watched in horror in April 2007 when Virginia Tech student Seung Hui Cho went on a killing rampage that resulted in the deaths of thirty two students and faculty members before he ended his own life Former Virginia Tech English department chair and distinguished professor Lucinda Roy saw the tragedy unfold on the TV screen in her home and had a terrible realization Cho was the student she had struggled to get to know the loner who found speech torturous After he had been formally asked to leave a poetry class in which he had

shared incendiary work that seemed directed at his classmates and teacher Roy began the difficult task of working one on one with him in a poetry tutorial During those months a year and a half before the massacre Roy came to realize that Cho was more than just a disgruntled young adult experimenting with poetic license he was in her opinion seriously depressed and in urgent need of intervention But when Roy approached campus counseling as well as others in the university about Cho she was repeatedly told that they could not intervene unless a student sought counseling voluntarily Eventually Roy s efforts to persuade Cho to seek help worked Unbelievably on the three occasions he contacted the counseling center staff he did not receive a comprehensive evaluation by them a startling discovery Roy learned about after Cho s death More revelations were to follow After responding to questions from the media and handing over information to law enforcement as instructed by Virginia Tech Roy was shunned by the administration Papers documenting Cho s interactions with campus counseling were lost The university was suddenly on the defensive Was the university in fact partially responsible for the tragedy because of the bureaucratic red tape involved in obtaining assistance for students with mental illness or was it just like many colleges woefully underfunded and therefore underequipped to respond to such cases Who was Seung Hui Cho Was he fully protected under the constitutional right to freedom of speech or did his writing and behavior present serious potential threats that should have resulted in immediate intervention How can we balance students individual freedom with the need to protect the community These are the questions that have haunted Roy since that terrible day No Right to Remain Silent is one teacher s cri de coeur her dire warning that given the same situation today two years later the ending would be no less terrifying and no less tragic FBI Law Enforcement Bulletin ,2009 *Suicidal Mass Murderers* John Liebert,William J.
