The Best

American Science and Nature Writing 2016 Amy Stewart, 2020-12-15 This anthology collects some of the year's best science and nature writing from climate change to killer beetles, expos of nail salons and more. As guest editor Amy Stewart says in her introduction, science writers get into the game with all kinds of noble, high-minded ambitions. We want to educate. To enlighten. But at the end of the day, we're all writers. We're just like novelists, memoirists, and poets. We're entertainers. The writers in this anthology pull off that wonderful feat of turning hard research into page-turning narrative. From a Pulitzer Prize-winning essay on the earthquake that could decimate the Pacific Northwest to the astonishing work of investigative journalism that transformed the nail salon industry, this is a collection of hard-hitting and beautifully composed writing on the wonders, dangers, and oddities of scientific innovation and our natural world. *The Best American Science and Nature Writing 2016* includes Kathryn Schulz, Sarah Maslin, Nir Charles C. Mann, Oliver Sacks, Elizabeth Kolbert, Gretel Ehrlich, and others.

The Best American Science and Nature Writing 2017 Hope Jahren, Tim Folger, 2017 Undeniably exquisite. Reveal's not only how science actually happens but also who or what propels its immutable humanity. Maria Popova. An excellent introduction to the key issues in science today. P. D. Smith. *Guardian*. A stellar compendium. Delightful to read. *Publishers Weekly* starred review. A renowned scientist and the best-selling author of *Lab Girl*, Hope Jahren selects the year's top science and nature writing from writers who balance research with humanity and in the process uncover riveting stories of discovery across disciplines.

The Best American Science and Nature Writing 2023 Carl Zimmer, Jaime Green, 2023-10-17 Award-winning writer, columnist, and journalist Carl Zimmer selects twenty science and nature essays that represent the best examples of the form published in 2022. What's most compelling about a scientific story is the way it challenges us to think about the concepts we take for granted, writes guest editor Carl Zimmer in his introduction. The essays in this year's *Best American Science and Nature Writing* probe at the ordinary and urge us to think more deeply about our place in the world around us. From a hopeful portrait of a future for people with Alzheimer's disease to a fascinating exploration of the rise of nearsightedness in children to the heroic story of a herd of cows that evaded a hurricane, these selections reveal how science and nature shape our everyday lives. With tremendous intelligence, clarity, and insight, this anthology offers an expansive look at where we are and where we are headed. *The Best American Science and Nature Writing 2023* includes JESSICA CAMILLE AGUIRRE, VANESSA GREGORY, SABRINA IMBLER, FERRIS JABR, MARION RENAULT, ELIZABETH SVOBODA, NATALIE WOLCHOVER, SARAH ZHANG, and others.
