**Officer Of The Blue** Edward Duyker, 2014-03-28 French explorer Marion Dufresne was the man who reached Tasmania before the English. His expedition was the first to encounter the Tasmanian Aborigines and was a precursor of the great voyages of La Perouse, d'Entrecasteaux, Baudin and d'Urville. To Australian and New Zealand readers this elegant biography will be as Frank Horner writes a reminder or a revelation of the international context in which the English explorations of their homelands took place. The eighteenth century conflict between Britain and France is mirrored in Marion Dufresne's life. The parallels with Cook are striking. Like his English contemporary Marion was a brilliant mariner who proved his skills in merchant shipping before joining his nation's Royal Navy. Like Cook he was involved in scientific efforts to observe the Transit of Venus and sought the Southland in uncharted waters. Finally he too died tragically at the hands of Polynesians.

*Appendix to the Journals of the Senate and Assembly ... of the Legislature of the State of California ...*, 1907      Alfred Marshall's Last Challenge Katia Caldari, Tamotsu Nishizawa, 2020-07-28 This text presents Alfred Marshall's final unfinished and unpublished book. His main volume *Principles of Economics* was first published in 1890 and was for a long period of time the textbook par excellence on which generations of economists were trained. Despite its success and its importance the book in its eight editions testifies to some extent to the failure of Marshall's original editorial project which should have consisted of multiple volumes and culminated with the publication of a final work on economic progress. Marshall's death in 1924 made it impossible to realize his project but many notes written for it have survived. These notes collected here constitute a fundamental element in fully understanding the thought and perspectives of this great economist and in appreciating his great modernity and wisdom.      House Documents, Otherwise Publ. as Executive Documents United States. **Receptacle of the Sacred** Jinah Kim, 2013-04-12 In considering medieval illustrated Buddhist manuscripts as sacred objects of cultic innovation *Receptacle of the Sacred* explores how and why the South Asian Buddhist book cult has survived for almost two millennia to the present. A book manuscript should be understood as a form of sacred space, a temple in microcosm, not only imbued with divine presence but also layered with the memories of many generations of users. Jinah Kim argues that illustrating a manuscript with Buddhist imagery not only empowered it as a three-dimensional sacred object but also made it a suitable tool for the spiritual transformation of medieval Indian practitioners. Through a detailed historical analysis of Sanskrit colophons on patronage, production and use of illustrated manuscripts she suggests that while Buddhism

s disappearance in eastern India was a slow and gradual process the Buddhist book cult played an important role in sustaining its identity In addition by examining the physical traces left by later Nepalese users and the contemporary ritual use of the book in Nepal Kim shows how human agency was critical in perpetuating and intensifying the potency of a manuscript as a sacred object throughout time **The Antiquary**, 1883 **Blue Book**, 1926 **Blue Book** Trinidad, 1914 Vols through 1887 include only Trinidad Genealogical Manuscripts in Cross-Cultural Perspective Markus Friedrich, Jörg B. Quenzer, 2024-12-16 Situating the history of genealogy in the ambit of manuscript studies this volume explores how handwriting practices influenced the development of genealogies It shows how lineages used handwritten documents in constructing and presenting their identity both to the outside world and to themselves Genealogical handwriting is practiced in many manuscript cultures this volume is the first to juxtapose studies from a wide variety of such cultures ranging from East Asia to West and Central Asia to Europe As the present contributions discuss in depth tracing one's lineage usually required taking note of personal histories biographies and relationships the chapters explore the many different reasons that compelled both individuals and institutions to do just this and highlight the various contexts in which genealogy writing occurred Taking a material oriented approach to handwriting practices in the study of genealogies can reveal the challenges implicated in producing such written artefacts highlighting the enormous effort required in cultivating lineage related knowledge Seen from the view of manuscript studies genealogies emerge as invaluable yet also highly fragile forms of cultural capital **Folia Orchidacea** John Lindley, 1855 *Reports of Committees* United States. Broderick, 2017-11-15 In *Moses the Egyptian* Herbert Broderick analyzes the iconography of Moses in the famous illuminated eleventh century manuscript known as the Illustrated Old English Hexateuch A translation into Old English of the first six books of the Bible the manuscript contains over 390 images of which 127 depict Moses with a variety of distinctive visual attributes Broderick presents a compelling thesis that these motifs in particular the image of the horned Moses have a Hellenistic Egyptian origin He argues that the visual construct of Moses in the Old English Hexateuch may have been based on a Late Antique no longer extant prototype influenced by works of Hellenistic Egyptian Jewish exegetes who ascribed to Moses the characteristics of an Egyptian Hellenistic king military commander priest prophet and scribe These Jewish writings were utilized in turn by early Christian apologists such as Clement of Alexandria and Eusebius of Caesarea Broderick's analysis of this Moses imagery ranges widely across religious divides art historical religious themes and classical and early Jewish and Christian sources Herbert Broderick is one of the foremost historians in the field of Anglo Saxon art with a primary focus on Old Testament iconography Readers with interests in the history of medieval manuscript illustration art history and early Jewish and Christian apologetics will find much of interest in this profusely illustrated study *The Gardeners Dictionary; containing the methods of cultivating ... the kitchen,*
