inexperienced college boys more accustomed to yachts than warships Their ships were untested vessels designed by a man with no formal training in ship design and which many viewed as a waste of money Yet as Cross points out these men are credited with helping turn the tide of the war in the Atlantic as they singlehandedly sank some seventy U boats and captured U 505 the only German submarine taken during the war and the first enemy vessel captured by Americans at sea since the War of 1812 In the Pacific the destroyer escorts fought in every major battle side by side with Allied battleships and destroyers But this story is not just about battles It is also about American genius hard work honor and growing up in the Great Depression The author provides eyewitness details about the historic first step taken to end racial discrimination in the military as African Americans stepped aboard the destroyer escort USS Mason as full fledged sailors for the first time and earned a Navy commendation of heroism in the Battle of the Atlantic presented to the surviving crewmen fifty one years later Readers also learn about an ingenious invention when a sailor breaks his silence about a secret weapon tested aboard his destroyer escort that rendered a new German radio controlled glide bomb useless A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942 ,1942 The Ship That Would Not Die Stephen Curley,2011-09-01 Starting its life as an attack transport in World War II and one of the last five left afloat by war s end the USS Queens saw action at Iwo Jima and other hot spots in the Pacific theater After the war the ship became the SS Excambion one of the Four Aces of American Export Lines the only fully air conditioned ships in the world at the time In 1965 the versatile Excambion underwent yet another transformation into a floating classroom Recommissioned as the USTS Texas Clipper the ship began a third life as a merchant marine training vessel with its home port in Galveston For the next three decades the Texas Clipper would be home to merchant marine cadets and by the time it was retired in 1996 it was the oldest active ship in the U S merchant marine fleet Finally the Texas Clipper after protracted bureaucratic wrangling was designated to be sunk in the Gulf of Mexico as an artificial reef to provide habitat for marine life In 2007 the ship was towed to its final resting place seventeen nautical miles off the coast of South Padre Island Now 136 feet below the surface the venerable Texas Clipper lives on as the home to a wide variety of underwater species Filled not only with meticulously researched technical and historical data about the ship s construction service record crew procedures and voyages The Ship That Would Not Die also features lively anecdotes from crew members passengers and officers More than 140 color and black and white photos illustrate the ship s construction its wide variety of shipboard life the exacting process of making the Texas Clipper ready to become an artificial reef and its final sinking in the Gulf of Mexico **Naval Training Bulletin** ,1958 *United States Naval Aviation 1910-2010: Navy and Marine Corps Air Stations and Fields Named for Aviators* Mark Llewellyn Evans,Roy A. Grossnick,2015 *Sailor in the White House* Robert Cross,2014-01-15 This behind the scenes look at Franklin D Roosevelt s extraordinary skill as a blue water sailor explores how FDR s love of the sea shaped his approach to public service and even influenced the course of events in World War II Family and friends Secret Service agents and others reveal never before told

stories of their days afloat with America's greatest seafaring president including how he escaped injury when fire broke out aboard his small schooner how ships were modified to accommodate his disability and details of his wartime ocean rendezvous with Winston Churchill Sailing pals discuss his abilities as a skipper along with his enjoyment of an evening cocktail at sea during the days of Prohibition Letters and other documents illustrate how the sea was never far from Roosevelt's thoughts Robert Cross examines Roosevelt's great affection for the sea in the context of an era dominated by the Great Depression and two world wars While some criticized Roosevelt for taking too many seagoing trips he logged hundreds of thousands of miles at sea and was sometimes out of touch with the White House and the Secret Service for hours FDR was quick to explain that his lengthy voyages allowed him to personally assess the world situation instead of relying solely upon White House briefing books The author argues that the skills required to be a good sailor have much in common with those needed to be a successful politician the ability to alter courses make compromises and shift positions as the situation warrants Cross describes FDR as a master at dealing with the unexpected allowing him to excel in the Navy Department the governor's mansion and the White House as well as the open sea From luxury ocean liners and presidential yachts to submarines and kayaks this book lists all of the vessels on which FDR sailed and includes some never before published photographs
