The Bucharest Conspiracy:

The Long 1968 in Hungary and Romania Adrian-George Matus, 2023-12-31 This book advances a local regional and comparative analysis of the history of the sixty eighters from Hungary and Romania between 1956 and 1975 The aim of the book is to answer to the following research question to what extent does the long 1968 mark and change protest history Another axis of my research equally important is how can one genuinely distinguish between a protest an opposition and a pastime Where did radicalisation truly begin and when was it solely an auto perception as a dissident In other words how can one truly distinguish between a leisure activity like listening to Radio Free Europe or exploring an altered state of consciousness and an explicit political activity like organising a protest or writing subversive texts Among other aims the books s scope is to understand where a leisure activity ends and a protest starts By practicing counterculture did the youth wish to contest the system or simply express themselves As method oral history plays a crucial part On a superficial level the interviews helped to fill in the archival gap However oral testimonies proved to reveal much more than essential factual information Oral history clarified how political and social events influenced the subjects memory formation *The Enforcement Story*, 2001 A Selection from the Writings of Viscount Strangford on Political, Geographical, and Social Subjects Smythe Percy Ellen Frederick William Strangford, 1869 *The Romanian Revolution of December 1989* Peter Siani-Davies, 2007 The Romanian Revolution of 1989 was the most spectacularly violent and remains today the most controversial of all the East European upheavals of that year Despite or perhaps because of the media attention the revolution received it remains shrouded in mystery How did the seemingly impregnable Ceausescu regime come to be toppled so swiftly and how did Ion Iliescu and the National Salvation Front come to power Was it by coup d tat Who were the mysterious terrorists who wreaked such havoc on the streets of Bucharest and the other major cities of Romania Were they members of the notorious securitate What was the role of the Soviet Union Blending narrative with analysis Peter Siani Davies seeks to answer these and other questions while placing the events and their immediate aftermath within a wider context Based on fieldwork conducted in Romania and drawing heavily on Romanian sources including television and radio transcripts official documents newspaper reports and interviews this book is the most thorough study of the Romanian Revolution that has appeared in English or any other major European language Recognizing that a definitive history of these events may be impossible Siani Davies focuses on the ways in which participants interpreted the events according to particular scripts and myths of revolution rooted in the Romanian historical experience In the process the author sheds light on the ways in which history and the conflicting retellings of the 1989 events are put to political use in the transitional societies of Eastern Europe A Selection from the Writings of Viscount Strangford on Political, Geographical, and Social Subjects Percy Ellen Frederick William Smythe Strangford (8th viscount), 1869 Arabic Printing for the Christians in Ottoman Lands Ioana Feodorov, 2023-10-04 Arabic printing began in Eastern Europe and the Ottoman Levant through the

association of the scholar and printer Antim the Iberian later a metropolitan of Wallachia and Athanasios III Dabb s twice patriarch of Antioch when the latter as metropolitan of Aleppo was sojourning in Bucharest This partnership resulted in the first Greek and Arabic editions of the Book of the Divine Liturgies Snagov 1701 and the Horologion Bucharest 1702 With the tools and expertise that he acquired in Wallachia Dabb s established in Aleppo in 1705 the first Arabic type press in the Ottoman Empire After the Church of Antioch divided into separate Greek Orthodox and Greek Catholic Patriarchates in 1724 a new press was opened for Arabic speaking Greek Catholics by Abdall h Z ir in in ra r al uwayr Lebanon Likewise in 1752 1753 a press active at the Church of Saint George in Beirut printed Orthodox books that preserved elements of the Aleppo editions and were reprinted for decades This book tells the story of the first Arabic type presses in the Ottoman Empire which provided church books to the Arabic speaking Christians irrespective of their confession through the efforts of ecclesiastical leaders such as the patriarchs Silvester of Antioch and Sofronios II of Constantinople and financial support from East European rulers like prince Constantin Br ncoveanu and hetman Ivan Mazepa Soviet Monitor ,1951

The Politics of Population Stanley Johnson, 2013-11-05 The International Conference on Population and Development in Cairo in 1994 represented a remarkable watershed Not only did it produce an unprecedented degree of agreement among the 179 countries and thousands of non governmental organizations taking part it also created a wide ranging Programme of Action which for the first time offers real chances of progress by putting population policies at the heart of the struggle for social development This book recounts what actually happened in Cairo and how it was achieved The early chapters look in some detail at the preparations for Cairo in the context of over three decades of attempts to integrate population development and environmental issues Focusing on the key controversial questions including abortion contraception and adolescent sex it examines the ways in which attempts were made to reconcile opposing positions Setting the discussion in a much wider context it argues that Cairo witnessed a quantum leap in the way the population issue is seen and the need to give them control over their own lives central to the discussion about population resources and development The Programme of Action which emerged from the conference particularly the parts dealing with gender issues included here in appendices is the most forward looking ever adopted As a whole the Programme is probably one of the most important social documents of our time This book captures both the drama and the detail of its creation Stanley Johnson edited *The Population Problem* 1974 and is the author of *World Population* and the United Nations 1987 and *World Population Turning the Tide* 1994 as well as numerous other books including eight novels Originally published in 1995
