Breastfeeding and Media Katherine A. Foss, 2017-06-14 This book centers on the role of media in shaping public perceptions of breastfeeding Drawing from magazines doctors office materials parenting books television websites and other media outlets Katherine A Foss explores how historical and contemporary media often undermine breastfeeding efforts with formula marketing and narrow portrayals of nursing women and their experiences Foss argues that the media s messages play an integral role in setting the standard of public knowledge and attitudes toward breastfeeding as she traces shifting public perceptions of breastfeeding and their corresponding media constructions from the development of commercial formula through contemporary times This analysis demonstrates how attributions of blame have negatively impacted public health approaches to breastfeeding thus confronting the misperception that breastfeeding and the failure to breastfeed rests solely on the responsibility of an individual mother

Gentle Birth, Gentle Mothering Sarah Buckley, 2013-02-20 An authoritative guide to natural childbirth and postpartum parenting options from an MD who home birthed her own four children. Sarah Buckley might be called a third wave natural birth advocate. A doctor and a mother, she approaches the question of how a woman and baby might have the most fulfilling birth experience with respect for the wisdom of both medical science and the human body. Using current medical and epidemiological research plus women's experiences, including her own, she demonstrates that what she calls undisturbed birth is almost always healthier and safer than high technology approaches to birth. Her wise counsel on issues like breastfeeding and sleeping during postpartum helps extend the gentle birth experience into a gentle parenting relationship.

Daigle, 2019-07-04 This book is a comprehensive guide to addressing working with and healing from emotional struggles related to fertility and eating disorders. Those who read this book will come away with a renewed sense of hope for recovery and healing from serious mental illnesses and the notion that the value of having a family may be stronger than the eating disorder itself.
