Quinn, 2015-08-24 Beholden to accepted assumptions about people and organizations too many enterprises waste human potential Robert Quinn shows how to defy convention and create organizations where people feel fully engaged and continually rewarded where both individually and collectively they flourish and exceed expectations The problem is that leaders are following a negative and constraining mental map that insists organizations must be rigid top down hierarchies and that the people in them are driven mainly by self interest and fear But leaders can adopt a different mental map one where organizations are networks of fluid evolving relationships and where people are motivated by a desire to grow learn and serve a larger goal Using dozens of memorable stories Quinn describes specific actions leaders can take to facilitate the emergence of this organizational culture helping people gain a sense of purpose engage in authentic conversations see new possibilities and sacrifice for the common good The book includes the Positive Organization Generator a tool that provides 100 real life practices from positive organizations and helps you reinvent them to fit your specific needs With the POG you can identify and implement the practices that will have the greatest impact on your organization At its heart the book helps leaders to see new possibilities that lie within the acknowledged realities of organizational life It provides five keys for learning to be bilingual speaking the conventional

language of business as well as the language of the positive organization When leaders can do this they are able to make real and lasting change
