

The Big Protest Of 2014

Paul A. Passavant

The Big Protest Of 2014:

Protest and Mass Mobilization Merouan Mekouar, 2016-03-02 Why and how do some acts of protest trigger mass mobilization while others do not Using the cases of Morocco Algeria Tunisia and Libya Mekouar argues that successful mass mobilization is the result of a surprise factor whose impact and exceptionality is amplified by the presence of influential political agents during the early phase of protest as well as by regime violence and unusual media coverage Together this study argues that these factors create a perception of exceptionality which breaks the locally available cognitive heuristic originally in favor of the regime and thus creates the necessary conditions for mobilization to occur This book provides a unique dialectical picture of mobilization in North Africa by focusing both on the perspective of those who mobilized against their local regimes and members of the security forces who were responsible for stopping them Moreover it offers a first hand account of the tumultuous days preceding authoritarian collapse and explains the mechanisms through which political change occurs

Media, Mobilization and the Umbrella Movement Francis L. F. Lee, 2018-05-16 The Umbrella Movement in Hong Kong caught the world's attention and imagination at the end of 2014 The 79 day occupation campaign took on some of the characteristics of the recent wave of large scale protest movements around the world including the prominent roles played by the media both conventional and digital in the mobilization and communication processes of the movement This edited volume *Media Mobilization and the Umbrella Movement* brings together nine contributions which examine various aspects of the media movement nexus including the power of televised images to mobilize people the role of social media in the insurgent public sphere young activists social media strategies media influence on citizens understanding of civil disobedience the government's response to digital media tactics public discourses about the rule of law and local and foreign media coverage of the movement We believe that this high quality collection can not only enhance our understanding of the Umbrella Movement but also facilitate and trigger more research and dialogue comparing the Umbrella Movement with other similar protest movements around the world This book was originally published as a special issue of the Chinese Journal of Communication

Evolution of Cyber Technologies and Operations to 2035 Misty Blowers, 2015-12-28 This book explores the future of cyber technologies and cyber operations which will influence advances in social media cyber security cyber physical systems ethics law media economics infrastructure military operations and other elements of societal interaction in the upcoming decades It provides a review of future disruptive technologies and innovations in cyber security It also serves as a resource for wargame planning and provides a strategic vision of the future direction of cyber operations It informs military strategist about the future of cyber warfare Written by leading experts in the field chapters explore how future technical innovations vastly increase the interconnectivity of our physical and social systems and the growing need for resiliency in this vast and dynamic cyber infrastructure The future of social media autonomy stateless finance quantum information systems the internet of things the dark web space satellite operations and global network connectivity is

explored along with the transformation of the legal and ethical considerations which surround them The international challenges of cyber alliances capabilities and interoperability is challenged with the growing need for new laws international oversight and regulation which informs cybersecurity studies The authors have a multi disciplinary scope arranged in a big picture framework allowing both deep exploration of important topics and high level understanding of the topic Evolution of Cyber Technologies and Operations to 2035 is as an excellent reference for professionals and researchers working in the security field or as government and military workers economics law and more Students will also find this book useful as a reference guide or secondary text book

Beyond the Protest Square Tetyana Lokot, 2021-03-17 This book examines how citizens use digital social media to engage in public discontent and offers a critical examination of the hybrid reality of protest where bodies spaces and technologies resonate It argues that the augmented reality of protest goes beyond the bodies the tents and the cobblestones in the protest square incorporating live streams different time zones encrypted conversations and simultaneous translation of protest updates into different languages Based on more than 60 interviews with protest participants and ethnographic analysis of online content in Ukraine and Russia it examines how citizens in countries with limited media freedom and corrupt authorities perceive the affordances of digital media for protest and how these enable or limit protest action The book provides a nuanced contribution to debates about the role of digital media in contentious politics and protest events both in Eastern Europe and beyond

Protests in the Information Age Lucas Melgaço, Jeffrey Monaghan, 2018-03-09 Information and communication technologies have transformed the dynamics of contention in contemporary society Social networks such as Facebook and Twitter and devices such as smartphones have increasingly played a central role in facilitating and mobilizing social movements throughout different parts of the world Concurrently the same technologies have been taken up by public authorities including security agencies and the police and have been used as surveillance tools to monitor and suppress the activities of certain demonstrators This book explores the complex and contradictory relationships between communication and information technologies and social movements by drawing on different case studies from around the world The contributions analyse how new communication and information technologies impact the way protests are carried out and controlled in the current information age The authors focus on recent events that date from the Arab Spring onwards and pose questions regarding the future of protests surveillance and digital landscapes

Protests and the Media Giedre Kubiliute, Ian R. Lamond, 2024-02-23 This insightful volume critically explores activist events in their scale and their capacity to attract media attention through a critical event studies lens offering new perspectives on protests and social movement This book conceives events of dissent as the public manifestation of counter narratives that articulate advocacy for policy change It focuses on the material and virtual manifestation of protest events and the media response to them associated with three active social movements Reclaim These Streets Extinction Rebellion and Black Lives Matter In doing so the text sheds light on how different political orientations within the media

articulate the representation of events of dissent manifest by these groups and how this results in significantly different opinion forming statements on the issues behind those movements as well as how this reflects mediated assessment of the responses of politicians the public and emergency service responses to protest events Furthermore it will explore the role of the Internet in the organisation of protest events and their part in the formation of networks of resistance enabling the roll out of events with a global reach demonstrated more recently by protests across many European cities against the war in Ukraine This timely and significant book will appeal to scholars of and those interested in events tourism protest political communication and media amongst others

The Politics of China-Hong Kong Relations Peter W Preston,2016-04-29

In 1997 the British state relinquished control of Hong Kong From that point an established prosperous community was faced with reordering its sense of itself and its links with the wider world around the authority of Beijing This book traces the political relationship between Hong Kong and China and sketches a number of possible future scenarios ranging from successful mutual understanding through to breakdown and the imposition of rule from Beijing Having lived and worked in East Asia Peter Preston brings a sympathetic outsider s eye to the problems of Hong Kong and Beijing relations He pursues four main issues the manner of embedding a new political settlement the business of governing the territory the issue of democracy and the likely future of the extant form of life Students and scholars specialising in comparative politics and international relations of East Asia will find this book to be of interest It will also be of use to those addressing political conflict in that part of the world

Grievances and Public Protests Martín Portos,2020-08-20

This book sheds light on the role that grievances play for mobilisation dynamics in a context of material deprivation Why do people protest To what extent do grievances account for the varying size of protest events over time Covering different levels of analysis the author argues that effects of socioeconomic aspects both objective material deprivation and subjective attitudinal grievances are mediated by political attitudes especially political dissatisfaction He develops a framework to account for the dynamics trajectory and timing of the cycle of contention that unfolded in Spain in the shadow of the Great Recession contributing not only to the field of social movement studies but to our broader understanding of European politics political sociology political economy and economic sociology

Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China

Economic and Security Review Commission,2013

Good Data Angela Daly,Monique Mann,S. Kate Devitt,2019-01-23

Moving away from the strong body of critique of pervasive bad data practices by both governments and private actors in the globalized digital economy this book aims to paint an alternative more optimistic but still pragmatic picture of the datafied future The authors examine and propose good data practices values and principles from an interdisciplinary international perspective From ideas of data sovereignty and justice to manifestos for change and calls for activism this collection opens a multifaceted conversation on the kinds of futures we want to see and presents concrete steps on how we can start realizing good data in practice

Policing Protest Paul A. Passavant,2021-06-28

In *Policing Protest* Paul A Passavant explores how

the policing of protest in the United States has become increasingly hostile since the late 1990s moving away from strategies that protect protesters toward militaristic practices designed to suppress protests He identifies reactions to three interrelated crises that converged to institutionalize this new mode of policing the political mobilization of marginalized social groups in the Civil Rights era that led to a perceived crisis of democracy the urban fiscal crisis of the 1970s and a crime crisis that was associated with protests and civil disobedience of the 1960s As Passavant demonstrates these reactions are all haunted by the figure of black insurrection which continues to shape policing of protest and surveillance notably in response to the Black Lives Matter movement Ultimately Passavant argues this trend of violent policing strategies against protesters is evidence of the emergence of a post democratic state in the United States *The Struggle Is Eternal* Joseph R. Fitzgerald,2018-12-14 Many prominent and well known figures greatly impacted the civil rights movement but one of the most influential and unsung leaders of that period was Gloria Richardson As the leader of the Cambridge Nonviolent Action Committee CNAC a multifaceted liberation campaign formed to target segregation and racial inequality in Cambridge Maryland Richardson advocated for economic justice and tactics beyond nonviolent demonstrations Her philosophies and strategies including her belief that black people had a right to self defense were adopted often without credit by a number of civil rights and black power leaders and activists The Struggle Is Eternal Gloria Richardson and Black Liberation explores the largely forgotten but deeply significant life of this central figure and her determination to improve the lives of black people Using a wide range of source materials including interviews with Richardson and her personal papers as well as interviews with dozens of her friends relatives and civil rights colleagues Joseph R Fitzgerald presents an all encompassing narrative From Richardson s childhood when her parents taught her the importance of racial pride through the next eight decades Fitzgerald relates a detailed and compelling story of her life He reveals how Richardson s human rights activism extended far beyond Cambridge and how her leadership style and vision for liberation were embraced by the younger activists of the black power movement who would carry the struggle on throughout the late 1960s and into the 1970s *Playing for Change* Russell Field,2016-01-27 For more than forty years scholars of the history and sociology of sport and recreation have studied how no matter the time or place sport is always more than just a game In *Playing for Change* leading scholars in the field of sports studies consider that legacy and forge ahead into the discipline s future Through essays grouped around the themes of international and North American sport including the Vancouver and Sochi Olympic Games access to physical activity in Canadian communities and the role of activism and the public intellectual in the delivery of sport the contributors offer a comprehensive examination of the institutional structures of sport physical activity and recreation This book provides wide ranging examples of cutting edge research in a vibrant and growing field *Protest, Youth and Precariousness* Renato Miguel Carmo,José Alberto Vasconcelos Simões,2020-04-09 After over a decade of the austerity measures that followed the 2008 financial crisis entailing severe unpopular policies that have galvanized opposition and frayed social ties what lies next

for European societies Portugal offers an interesting case for exploring this question as a nation that was among the hardest hit by austerity and is now seeking a fresh path forward This collection brings together sociologists social movement specialists political scientists and other scholars to look specifically at how Portuguese youth have navigated this politically and economically difficult period negotiating uncertain social circumstances as they channel their discontent into protest and collective action

Fear and Schooling Ronald W. Evans,2019-09-23 By exploring the tensions impacts and origins of major controversies relating to schooling and curricula since the early twentieth century this insightful text illustrates how fear has played a key role in steering the development of education in the United States Through rigorous historical investigation Evans demonstrates how numerous public disputes over specific curricular content have been driven by broader societal hopes and fears Illustrating how the population s concerns have been historically projected onto American schooling the text posits educational debate and controversy as a means by which we struggle over changing anxieties and competing visions of the future and in doing so limit influence of key progressive initiatives Episodes examined include the Rugg textbook controversy the 1950s crisis over progressive education the MACOS dispute conservative restoration culture war battles and corporate school reform In examining specific periods of intense controversy and drawing on previously untapped archival sources the author identifies patterns and discontinuities and explains the origins development and results of each case Ultimately this volume powerfully reveals the danger that fear based controversies pose to hopes for democratic education This informative and insightful text will be of interest to graduate and postgraduate students researchers and academics in the fields of educational reform history of education curriculum studies and sociology of education

Late Neoliberalism and its Discontents in the Economic Crisis Donatella Della Porta,Massimiliano Andretta,Tiago Fernandes,Francis O'Connor,Eduardo Romanos,Markos Vogiatzoglou,2016-10-29 This book analyses protests against the Great Recession in the European periphery While social movements have long been considered as children of affluent times or at least of times of opening opportunities these protests defy such expectations developing instead in moments of diminishing opportunities in both the economic and the political realms Can social movement studies still be useful to understanding these movements of troubled times The authors offer a positive answer to this question although specify the need to bridge contentious politics with other fields including political economy They highlight differences in the social movements strength and breadth and attempt to understand them in terms of three sets of dimensions a the specific characteristics of the socio economic crisis and its consequences in terms of mobilization potential b the political reactions to it in what we can define as political opportunities and threats and c the social movement cultures and structures that characterize each country The book discusses these topics through a contextualized analysis of anti austerity protest in the European periphery

Labour Conflicts in the Global South Andreas Bieler,Jörg Nowak,2022-04-27 Against the background of the global economic crisis since 2007 2008 and increasing inequality across the world the Global South has experienced

widespread large scale industrial action including in countries such as China Brazil India and South Africa which had been hailed as the new growth engines of the global political economy as part of the so called BRICS This volume systematically evaluates how the new forms of labour mobilization witnessed in the past ten years responded to the predominance of the informality precarity complex of industrial relations and what conclusions can be drawn for potentially successful strategies against exploitation in the future Can we identify a convergence of new approaches across the Global South or do we witness an ongoing fragmentation of actors models and strategies In addressing this question consideration is given to issues of class as well as gender and race The chapters in this book were originally published as a special issue of the journal Globalizations

Fractured Militancy Marcel Paret, 2022-02-15 Drawing on extensive ethnographic fieldwork and interviews with activists *Fractured Militancy* tells the story of postapartheid South Africa from the perspective of Johannesburg's impoverished urban Black neighborhoods Nearly three decades after South Africa's transition from apartheid to democracy widespread protests and xenophobic attacks suggest that not all is well in the once celebrated rainbow nation Marcel Paret traces rising protests back to the process of democratization and racial inclusion This process dangled the possibility of change but preserved racial inequality and economic insecurity prompting residents to use militant protests to express their deep sense of betrayal and to demand recognition and community development Underscoring remarkable parallels to movements such as Black Lives Matter in the United States this account attests to an ongoing struggle for Black liberation in the wake of formal racial inclusion Rather than unified resistance however class struggles within the process of racial inclusion produced a fractured militancy Revealing the complicated truth behind the celebrated success of South African democratization Paret uncovers a society divided by wealth urban geography nationality employment and political views *Fractured Militancy* warns of the threat that capitalism and elite class struggles present to social movements and racial justice everywhere **Protest**

Technologies and Media Revolutions Athina Karatzogianni, Michael Schandorf, Ioanna Ferra, 2020-11-26 Contains an Open Access chapter With chapters spanning from the Russian Revolution to the present day this book considers how art media and communication technologies have been operationalised to connect mobilise organize and inspire the masses in particular national political and economic contexts **Democratization in EU Foreign Policy** Benedetta Berti, Kristina

Mikulova, Nicu Popescu, 2015-09-16 New democracies are uniquely positioned to promote democratic values and have a competitive advantage in the global democracy assistance industry This book examines the attempts of one group of young democracies from Central and Eastern Europe CEE to channel this pro democracy agenda into both national and European foreign policy and development support It looks at how CEE is upstream changing the EU on crucial policy issues as part of the common foreign and security policy Furthermore it tracks the process whereby imported ideas and norms are recycled for further export downstream and how these concepts are received in countries outside of the EU including the post Soviet space the Western Balkans the Middle East and North Africa region and Central Asia This text will be of key interest to

scholars students and practitioners of democratisation studies European Union studies comparative politics international relations international development European politics as well as area regional studies

The Enigmatic Realm of **The Big Protest Of 2014**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **The Big Protest Of 2014** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting impact on the hearts and minds of those who partake in its reading experience.
