**A Book of Automatic Drawing** Austin Osman Spare,1972      **The Book of Automatic Drawing** Austin Osman Spare,2014-11-03 Thank you for checking out this book by Theophania Publishing We appreciate your business and look forward to serving you soon We have thousands of titles available and we invite you to search for us by name contact us via our website or download our most recent catalogues OUT OF THE FLESH of our mothers come dreams and memories of the Gods Of other kind than the normal inducement of interest and increasing skill there exists a continual pressure upon the artist of which he is sometimes partially conscious but rarely entirely aware He learns early or late in his career that power of literal reproduction such as that of the photographic apparatus is not more than slightly useful to him He is compelled to find out from his artist predecessors the existence in representation of real form of super sessions of immediate accuracies he discovers within himself a selective conscience and he is satisfied normally in large measure by the extensive field afforded by this broadened and simplified beyond this is a region and that a much greater one for exploration The objective understanding as we see has to be attacked by the artist and a subconscious method for correction of conscious visual accuracy must be used No amount of manual skill and consciousness of error will produce good drawing A recent book on drawing by a well known painter is a case in point there the examples of masters of draughtsmanship may be compared with the painter author s own side by side and the futility of mere skill and interest examined Therefore to proceed further it is necessary to dispose of the subject in art also that is to say the subject in the illustrative or complex sense Thus to clear the mind of inessentials permits through a clear and transparent medium without prepossessions of any kind the most definite and simple forms and ideas to attain expression      *A Book of Automatic Drawing* Austin Oman Spare,1972      **Line Let Loose** David Maclagan,2013-07-15 As forms of drawing go scribbling is the most basic it is seen as playing a formative role in the drawings of both children and primates Doodling while still being a widespread phenomenon is largely an adult preoccupation a nomadic form of drawing typically produced during meetings and phone calls But even though those who engage in it are not necessarily trained artists automatic drawing is a more dramatic event and the results of an absentminded or trancelike state are sometimes astonishing Because of their amateur and spontaneous character all three forms of drawing have been adopted by modern artists seeking to escape from the constraints of their professional skills In Line Let Loose David Maclagan shows that each of these marginal forms of drawing has its own history in spiritualism surrealism abstract expressionism and psychedelic art Referring to Klee Pollock Miro Twombly and LeWitt as well as many lesser known or anonymous artists he traces the links between them and a pervasive notion of the spontaneous and unconscious creation of forms in art He suggests that the original novelty of these unconventional drawing processes has begun to wear off and he explores their new situation in our modern digital culture      **The Complete Idiot's Guide to Meditation, 2nd Edition** Eve Adamson,Joan Budilovsky,2002-12-03 You re no idiot of course Sometimes you just want to

**The Hermetic Marriage of Art and Alchemy** Marlene Seven Bremner, 2023-06-27. An initiatory and practical guide to creative alchemy. Shares hermetic and alchemical techniques for liberating creative expression and looks at the zodiacal and planetary timing of creative operations. Explains how to work with and transmute alchemical energies for increased levels of insight, intuition and imaginative expression. Explores the connections between Surrealism and alchemy as well as the rich and complicated symbolism of alchemical art. In this initiatory guide to the Hermetic art of alchemy, artist Marlene Seven Bremner reveals how the alchemical opus, the Great Work, offers a practical means for liberating the authentic creator within and attaining gnosis or true self-knowledge. Exploring the connections between Surrealism and alchemy as well as the rich and complicated symbolism of alchemical art, Bremner elucidates how both Surrealism and alchemy seek to unfetter the imagination and dissolve the boundaries between dream and reality, thus reconciling the conscious and unconscious minds. She details how the three principles, salt, sulfur and mercury, the four elements and the seven planets interact together and within the self in creative alchemy and she explains how to work with and transmute these energies for increased levels of insight, intuition and imaginative expression. The author shares practical Hermetic and alchemical techniques for liberating creative expression and clearing energetic obstructions that prevent us from reaching our higher potential. She also looks at the zodiacal and planetary timing of creative operations. Revealing how the stages of alchemical transmutation are relevant to the creative process, the author shows how the initiate comes to experience for themselves the relationship between consciousness and matter, which is the essence of alchemical teachings. By creating, one transmutes spiritual energies through matter for greater self-knowledge and awakening. Allowing you to truly realize your own creative power, this in-depth guide to creative alchemy shows how the alchemical path attunes the Self to the rhythms of the spheres so that one is naturally creating in time with the seasons and zodiac signs and in harmony with elemental forces and planetary influences.
