The Book of Illusions Paul Auster, 2009-10-27 From the bestselling author of *Baumgartner* comes an emotional puzzle of one man's broken heart that the author mends page by ingenious page Elle A man's obsession with a silent film star sent him on a journey into a shadow world of lies illusions and unexpected love Six months after losing his wife and two young sons in an airplane crash Vermont professor David Zimmer spends his waking hours mired in a blur of alcoholic grief and self pity Then watching television one night he stumbles upon a clip from a lost silent film by comedian Hector Mann Zimmer's interest is piqued and he soon finds himself embarking on a journey around the world to research a book on this mysterious figure who vanished from sight in 1929 and has been presumed dead for sixty years When the book is published the following year a letter turns up in Zimmer's mailbox bearing a return address from a small town in New Mexico supposedly written by Hector's wife Hector has read your book and would like to meet you Are you interested in paying us a visit Is the letter a hoax or is Hector Mann still alive Torn between doubt and belief Zimmer hesitates until one night a strange woman appears on his doorstep and makes the decision for him changing his life forever This stunning novel plunges the reader into a universe in which the comic and the tragic the real and the imagined the violent and the tender dissolve into one another A nearly flawless work Auster will be remembered as one of the great writers of our time *San Francisco Chronicle*

Critical Reflections James A. Parr, 2006 This volume seeks to explore developments in the study of sixteenth and seventeenth century Spanish literature over the past decade through the prism of a homage volume that recognizes the contributions of James A Parr In his ground breaking 1974 essay in *Hispania* he challenged Hispanists to take note of developments in the fields of English and Comparative Studies not to jump on the bandwagon but to explore the emerging approaches to textual study in order to identify and adapt those aspects that could help to illuminate the field In his own work Parr followed that advice with studies that incorporated new approaches to genre theory narratology and canonicity in order to explore dramatic and prose texts and *Don Quixote* The studies in this anthology make use of many of Parr's innovations indicating that his work has had a long lasting impact on the field of Golden Age Hispanism

Affect and American Literature in the Age of Neoliberalism Rachel Greenwald Smith, 2015-04-20 Rachel Greenwald Smith's *Affect and American Literature in the Age of Neoliberalism* examines the relationship between contemporary American literature and politics Through readings of works by Paul Auster Karen Tei Yamashita and others Smith challenges the neoliberal notion that emotions are the property of the self

real Messiah to abandon his mission

Imaginary Films in Literature, 2015-11-09 Since cinema is a composite language describing a movie is a complex challenge for critics and writers and greatly differs from the ancient and successful genre of the ekphrasis the literary description of a visual work of art *Imaginary Films in Literature* deals with a specific and significant case within this broad category the description of imaginary non existent movies a practice that is more widespread than one might expect especially in North American postmodern fiction Along with theoretical contributions the book includes the analyses of some case studies focusing on the borders between the visual and the literary intermedial practices of hybridization the limits of representation and other related notions such as memory fragmentation desire genre authorship and censorship

Bi-directionality in the Cognitive Sciences Marcus Callies, Wolfram R. Keller, Astrid Lohöfer, 2011 Cognitive science is the interdisciplinary study of the human mind As far as the exact relationship between the cognitive sciences and other fields is concerned however it appears that interdisciplinary exchange often remains unrealized possibly because of the uni directional application of theories concepts and methods which impedes the productive transfer of knowledge in both directions In the course of the cognitive turn in the humanities and social sciences many disciplines have selectively borrowed ideas from core cognitive sciences like psychology and artificial intelligence The day to day practice of interdisciplinarity thus thrives on one directional borrowings Focusing on cognitive approaches in linguistics and literary studies this volume explores bi directionality a genuine transdisciplinary interchange in which both disciplines are borrowing and lending The contributions take different perspectives on bi directionality some extend uni directional borrowing practices and point to avenues and crossroads while others critically discuss obstacles challenges and limitations to bi directional transfer

Narrative Care: Biopolitics and the Novel Arne De Boever, 2013-03-28 If the September 11 terror attacks opened up an era of crises and exceptions of which we are yet to see the end it is perhaps not surprising that care has emerged in the early twenty first century as a key political issue This book approaches contemporary narratives of care through the lens of a growing body of theoretical writings on biopolitics Through close readings of J M Coetzee's *Slow Man* Kazuo Ishiguro's *Never Let Me Go* Paul Auster's *The Book of Illusions* and Tom McCarthy's *Remainder* it seeks to reframe debates about realism in the novel ranging from Ian Watt to Zadie Smith as engagements with the novel's biopolitical origins its relation to pastoral care the camps and the welfare state Within such an understanding of the novel what possibilities for a critical aesthetics of existence does the contemporary novel include

Melancholy and the Archive Jonathan Boulter, 2011-05-19 *Melancholy and the Archive* examines how trauma history and memory are represented in key works of major contemporary writers such as David Mitchell Paul Auster Haruki Murakami and Jose Saramago The book explores how these authors construct crucial relationships between sites of memory the archive becomes a central trope here and the self that has been subjected to various traumas various losses The archive be it a bureaucratic office Saramago an underground bunker Auster a geographical space or landscape Mitchell or even a hole Murakami

becomes the means by which the self attempts to preserve and conserve his or her sense of history even as the economy of trauma threatens to erase the grounds of such preservation as the subject or self is threatened so the archive becomes a fetishized site wherein history is housed accommodated created even fabricated The archive in Freudian terms becomes a space of melancholy precisely as the subject preserves not only a personal history or a culture s history but also the history of the traumas that necessitates the creation of the archive as such
