 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world **Stop Dieting and Start Eating** Tony Bednarowski, 2016-07-15 WARNING After reading this book you will never look at diets calories food labels or the foods you choose to eat the same ever again It's time to set the record straight This is not a book about dieting because it's evident that diets don't work we've seen it or experienced it over and over again This book is about understanding how food works within our body how certain foods will keep you healthy while others will contribute to your weight and health issues It's about making the right choices and never feeling hungry or deprived in the process Stop Dieting Start Eating will teach you Why counting calories makes no sense What foods trigger weight gain and what foods stimulate weight loss Why cutting your calories may actually make your body hoard fat What five ingredients in our foods are creating major hormonal disruption How much protein carbohydrates fat fiber and water your body really needs And so much more *The Fallacy of the Calorie* Michael S. Fenster, 2014-12 Jean Anthelme Brillat Savarin wrote in The Physiology of Taste two months before his death Tell me what you eat and I will tell you who you are In the almost 200 years since its publication in 1825 we have borne witness to the ultimate veracity of such a simple observation We have seen that truism reflected in our own modern Western diet It is a diet that delivers us unto the disabilities and diseases of modern civilization obesity diabetes cardiovascular disease gastrointestinal disease neurologic disease and autoimmune disease Disabilities and diseases that have at their root a chronic continuous low level inflammation While we have suffered the inevitable outcome of such dietary indiscretion the cause has evaded us And without understanding the how and the why redemption will continue to elude us We will continue to focus on ineffective and misguided approaches Super foods dieting and weight loss fads and the seeking of salvation through deprivation have yielded us nothing but continued misery and malady Now for the first time Dr Mike cardiologist and chef reveals the how and the why of the modern Western diet He explains how we are hardwired to seek out sugar salt and fat He details how that greed to for these consumables allowed us to become the most dominant species on the planet and construct the most technologically advanced and complex social structure the world has ever known But that progress has not come without a price Dr Mike identifies the changes to our food and food pathways that occurred at the onset of the Industrial Revolution and have become particularly pronounced over the last fifty to seventy five years Changes that have disrupted our physiology and our relationship with our symbiotic gut microbiome Changes that have produced the modern Western diet with its dysbiosis disabilities and diseases of modern civilization With the eye of a chef and a deep understanding and appreciation for the experiential nature and integral role

that food and cuisine has in our society and our own personal health and wellness Dr Mike crafts a prescription to break the vicious cycle of addiction at the heart of the modern Western diet This journey to metabolic health is a Code Delicious
