**At the Point of a Cutlass** Gregory N. Flemming, 2015-10-06 The astonishing true story of a young sailor's ordeal during the golden age of piracy.

**Beyond Words** Carol-Lynne Moore, Kaoru Yamamoto, 2012-03-12 Beyond Words presents a range of illuminating approaches to examining every day social interactions to help the reader understand human movement in new ways. Carol Lynne Moore and Kaoru Yamamoto build on the principles that they expertly explored in the first edition of the book, maintaining a focus on the processes of movement as opposed to discussions of static body language. The authors combine textual discussion with a new set of website-hosted video instructions to ensure that readers develop an in-depth understanding of nonverbal communication as well as the work of its most influential analyst, Rudolf Laban. This fully revised, extensively illustrated second edition includes a new introduction by the authors. It presents a fascinating insight into this vital field of study and will be an invaluable resource for scholars and practitioners in many activities, from performing and martial arts, athletics to therapeutic and spiritual practices, conflict resolution, business interactions, and intercultural relations.

**Around the World with Historical Fiction and Folktales** Beth Bartleson Zarian, 2004 As more school districts undergo the painstaking task of curriculum integration, resources that offer children an opportunity to live vicariously in times and places they cannot experience any other way become increasingly necessary. Whether two teachers are covering the same topic in separate classes (e.g., English and history) or designing a thematic unit with the school librarian, this book will assist all parties in the selection of high-quality literature. In this handy guide to nearly 800 award-winning historical fiction for Kindergarten through 8th grade, Beth Zarian literally spans the globe. Entries are first divided into three sections: American history, world history, and myths and folklore; then chronologically from prehistoric times to present day; and finally by grade level. Each entry is accompanied by a short annotation. For anyone wishing to teach historical facts in an entertaining way, *Around the World with Historical Fiction and Folktales* is the only way to travel.

**Colonel Hugh North 18: Two Tickets for Tangier** Van Wyck Mason, 2016-04-14 MAN FROM G 2 MEETS GIRL FROM MI 2 Lady Angela Forester, fair, vivacious, voluptuous, and Colonel Hugh North, rugged agent from G 2, made a handsome couple as they sipped their drinks in a plush London restaurant. The one-time lovers had met accidentally and were now renewing the glorious days of old. But something was different. Hugh kept telling himself Angela had changed. It was only after Hugh North set out on his dangerous and delicate mission to Tangier with Angela at his side that he learned his lovely girlfriend was now an important MI 2 agent. Quite exciting. BASIC Microcomputing and Biostatistics Donald W. Rogers,2012-12-06 BASIC Microcomputing and Biostatistics is designed as the first practical how to guide to both computer programming in BASIC and the statistical data processing techniques needed to analyze experimental clinical and other numerical data It provides a small vocabulary of essential computer statements and shows how they are used to solve problems in the biological physical and medical sciences No mathematical background beyond algebra and an inkling of the principles of calculus is assumed All more advanced mathematical techniques are developed from scratch before they are used The computing language is BASIC a high level language that is easy to learn and widely available using time sharing computer systems and personal microcomputers The strategy of the book is to present computer programming at the outset and to use it throughout BASIC is developed in a way

reminiscent of graded readers used in human languages the first programs are so simple that they can be read almost without an introduction to the language Each program thereafter contains new vocabulary and one or more concepts explained in the text not used in the previous ones By gradual stages the reader can progress from programs that do nothing more than count from one to ten to sophisticated programs for nonlinear curve fitting matrix algebra and multiple regression There are 33 working programs and except for the introductory ones each performs a useful function in everyday data processing problems encountered by the experimentalist in many diverse fields     What Went Wrong George R. Tyler, 2013-07-16 Something has gone seriously wrong with the American economy The American economy has experienced considerable growth in the last 30 years But virtually none of this growth has trickled down to the average American Incomes have been flat since 1985 Inequality has grown and social mobility has dropped dramatically Equally troubling these policies have been devastating to both American productivity and our long term competitiveness Many reasons for these failures have been proposed Globalization Union greed Outsourcing But none of these explanations can address the harsh truth that many countries around the world are dramatically outperforming the U S in delivering broad middle class prosperity And this is despite the fact that these countries are more exposed than America to outsourcing and globalization and have much higher levels of union membership In What Went Wrong George R Tyler a veteran of the World Bank and the Treasury Department takes the reader through an objective and data rich examination of the American experience over the last 30 years He provides a fascinating comparison between the America and the experience of the family capitalism countries Australia Austria Belgium Denmark France Germany the Netherlands and Sweden Over the last 30 years they have outperformed the U S economy by the only metric that really matters delivering better lives for their citizens The policies adopted by the family capitalist countries aren't socialist or foreign They are the same policies that made the U S economy of the 1950s and 1960s the strongest in the world What Went Wrong describes exactly what went wrong with the American economy how countries around the world have avoided these problems and what we need to do to get back on the right track     SEC Docket United States.
