discoveries offer some credence to the tale Those new theories while similar to my experience depend on the idea of the projection of the Universe as a hologram and modern scientists owe some sympathy to the idea They have not had the dubious benefit of my experiences as a guide however So the idea of projecting serial electronic pictures across a time continuum and onto an event horizon has not hit the new science headlines so far even though the technology exists for such events Like all new science my idea will have its arm chair critics The reader of this book is about to become one of those critics To the sceptic I would ask the question How long is it since radio and television were invented discovered If you wrote a book about radio and television in the 19th Century would you have ended up in the loony bin Most likely John Greenridge 2009

Now with deeply embedded wrongheaded cultural norms being pushed against as never before we can also understand how societal shifts sometimes happened in past centuries within months days or hours or when a tipping point was finally reached Collectively in the back of our minds a part of us knew a massive shift could or would eventually happen We ve all been dreaming of or expecting some type of change to happen Although we weren t expecting anything as drastic and cultural world shifting as what did happen We all want to change our own lives for the better and now it truly feels like it should also include the lives of others Without time to plan for this it felt like it happened in an instant So if anyone needed any proof yes we are definitely all one If we believe we possess the power to change ourselves then the same has to be true for positively shifting the culture Transforming our culture into a more empathetic generous and tolerant culture is worth the effort And this is the ideal historic moment to do so If not now when

Post- and Transhumanism - Le Berthélaine, 2019-08-01 Preface Essay trilogy part I on post and transhumanism each part focusing separate issues Post and transhumanism are to most people new areas of interest and therefore when they encounter these discourses they have only a slight understanding of the problematics in question and the serious consequences the new bio tech era inevitably will entail The intention of the present trilogy on post and transhumanism is thus to give an introductory account of the matters and questions in play in a comprehensible way so that the trilogy will be informative and enlightening both to newcomers and those already familiar with the topic At a first glance post and transhumanism undeniably have a futuristic aura hence if one were to speak of such an era it would be one belonging to the future or merely a sci fi scenario Nonetheless this is not the case and several critics in the field argue that we in fact already live in a post and transhumanistic age A conviction Poetic Parloir endorses or at least the view that the biotech revolution is unstoppable urgent and pending And certainly the view that it will have a great impact on humankind and human existence changing our understanding of what it means to be a human and to live a human life a decisive influence that demands our moral attention as the new bio techniques evolve at a far higher pace than moral and ethics can keep up with Poetic Parloir is unique in how it introduces the pending era as it often bases itself on popular as well as acknowledged literature art and film together with perspectives of philosophy religion and science Spheres of which the reader may have a good foreknowledge and understanding This will facilitate the comprehension of the sometimes complex post and transhumanistic issues Certainly new times are pending some say the promised land the Millennial Kingdom from the Book of Revelation I say it is a rabbit hole and we are invited whether we like or not with Alice either into the wonderland of utopia or the gloomy wasteland of dystopia It needs our attention Dear reader I hereby give you Poetic Parloir part I on the topic of post and transhumanism Yours to read yours to roam yours to revel in
