

About the backup battery

The backup battery, which is a primary cell, is used to maintain the clock and the alarm when the main battery is depleted. The battery keeps the clock and the alarm working in the event of a power interruption.

Knowing when to replace the battery

When the battery becomes weak, the "LO" indicator appears on the display. At the onset of a power interruption, when the clock or alarm sounds, the alarm tone and alarm will not continue.

Replace the battery with a long-life (NiMH) alkaline battery. Use of a standard battery may produce a bad effect on operation.

Installing and replacing the backup battery

1. Keep the AC plug connected to the AC outlet, remove the cover that covers the battery compartment at the rear of the unit using a screwdriver, and remove the battery compartment. For Fig. 1.
