Halpern,1995 *Changing Lives in Laos* Vanina Bouté,Vatthana Pholsena,2017-04-21 Changes in the character of the political regime in Laos after 2000 a massive influx of foreign investment and disruptions to rural life arising from improved communications and new forms of mobility within and across the borders have produced a major transformation Alongside these changes a group of young scholars carried out studies that document the rise of a new social cultural and economic order The contributions to this volume draw on original fieldwork materials and unpublished sources and provide fresh analyses of topics ranging from the structures of power to the politics of territoriality and new forms of sociability in emerging urban spaces *Post-war Laos* Vatthana Pholsena,2006 Three decades after the conclusion of the civil war that brought the communist Pathet Lao to power the leaders of the Lao People s Democratic Republic are still searching for a compelling and unifying national identity As detailed in Postwar Laos a rigorously researched cogently argued and pathbreaking book Laotian nationalism is caught between the rhetoric of preservation and the desire for modernity Using fine grained analysis of substantial ethnographic and archival material Vatthana Pholsena sheds light on the politics of identity the geographies of memory and the power of historical narrative in contemporary Laos Pholsena pays particular attention to the country s ethnic minorities who had been marginalized politically administratively and symbolically by the French colonial government which ruled for fifty years and by its Royal Lao successor Many members of these minorities fought for the Lao People s Liberation Army in the country s civil war 1960 1975 though and were thus exposed to the processes of modern politics The first book to examine the impact of such forces on Laos s ethnic minorities and their perception of Laotian nationalism Postwar Laos also refines established theories of nationalism Pholsena addresses a weakness common to all the tendency to deny agency to individuals who may in fact interpret their relationship to and place within the nation in a variety of ways that change according to time and circumstance Postwar Laos offers a new perspective on the history of Southeast Asia and more broadly on the formation of national identity that will be welcomed by historians political scientists sociologists ethnographers and cultural anthropologists alike **Laos, a Country Study** ,1979
