Stolen Child - In-Between Adele DeGirolamo, 2015-09-04 This is the second novel that belongs to the Stolen Child Tale This book finds us where book one has left off and takes us into the Realm of the Space In Between the Land of the Selkies and their unusual World where Kashandar the Witch's father lives It is here she travels to warn him of the Sling's arrival back into their land and to ask him to help her bring the Ka afrey Covens together to keep the creature away from finding the last two remaining offspring of the Tuatha De Danann Meanwhile Sibrey who has been able to escape the Tracker who was hunting her has been taken into the Kingdom of the Sky People while the Dragon Lords sent to protect her have started to go missing along the edges of their home land This tale also introduces you to the Dark Sidhe Queen who has taken two of the Dragon Lords prisoner down below in her Dark World just as the Dragons themselves start to disappear from the Continent of Water's Deep

Gene Roddenberry's Star Trek Douglas Brode, Shea T. Brode, 2015-05-14 When it premiered on NBC in September 1966 Star Trek was described by its creator Gene Roddenberry as Wagon Train to the stars Featuring a racially diverse cast trips to exotic planets and encounters with an array of alien beings who could be either friendly or hostile the program opened up new vistas for television Along with The Twilight Zone and The Outer Limits Star Trek represented one of the small screen's rare ventures into science fiction during the 1960s Although the original series was a modest success during its three year run its afterlife has been nothing less than a cultural phenomenon To celebrate the show's debut fifty years later it's time to reexamine one of the most influential programs in history In Gene Roddenberry's Star Trek The Original Cast Adventures Douglas and Shea T Brode present a collection of essays about the series and its various incarnations over the years Contributors discuss not only the 1960s show but also its offshoots ranging from novels and graphic novels to toys and video games as well as the films featuring Captain Kirk Mr Spock and the rest of the Enterprise crew Essays address the show's religious implications romantic elements and its role in the globalization of American culture Other essays draw parallels between the series and the Vietnam War compare Star Trek II to Milton's Paradise Lost posit Roddenberry as an auteur and consider William Shatner as a romantic object With its far-reaching and provocative essays this collection offers new insights into one of the most significant shows ever produced Besides television and film studies

Gene Roddenberry's *Star Trek* a companion volume to *The Star Trek Universe* will be of interest to scholars of religion history gender studies queer studies and popular culture not to mention the show's legions of fans *Non-Western Identity* Byron G. Adams, Fons J. R. van de Vijver, 2022-02-02 Identity is a construct strongly rooted and still predominantly studied in Western or WEIRD Western educated industrialized rich and democratic contexts e.g. North American and Western European Only recently has there been more of a conscious effort to study identity in non Western or non WEIRD contexts This edited volume investigates identity from primarily a non Western perspective by studying non Western contexts and non Western minority or immigrant groups living in Western contexts The contributions a examine different aspects of identity e.g. personal identity social identity online identity as either independent or interrelated constructs b consider the associations of these constructs with aspects of intergroup relations acculturative processes and or psychological well being c document the advancement in research on identity in underrepresented groups contexts and regions such as Africa Asia Eastern Europe the Middle East and South America and d evaluate different approaches to the study of identity and the implications thereof This book is intended for cultural or cross cultural academics practitioners educators social workers postgraduate students undergraduate students and scholars interested in studying identity It provides insight into how identity in non Western groups and contexts may both be informed by and may inform Western theoretical perspectives Usability and User Experience Tareq Ahram and Christianne Falcão, 2023-07-19 Proceedings of the 14th International Conference on Applied Human Factors and Ergonomics AHFE 2023 July 20-24 2023 San Francisco USA *Afrotropical Streams and Rivers* Tatenda Dalu, Frank Masese, 2024-11-09 *The Afrotropical Streams and Rivers Structure Ecological Processes and Management* is a comprehensive guide that provides assessment of major rivers and tributaries in Africa Unlike other books available the editors present a thorough study of geomorphological hydrological biological and ecological processes incorporating a range of plant and animal communities while considering implications of human communities that depend upon them This book edited by a diverse cohort of researchers and or scholars is intended as an educational and practical guide for graduate students researchers and scientists who focus on the biodiversity conservation and management policy issues of the African river systems Provides a comprehensive introduction to African freshwater rivers their biota and abiotic processes Contains unique case studies on African streams and rivers Organised around an interdisciplinary approach that covers the complex aspects of conservation and management of African river systems on the continent Modern Trends in Diatom Identification Gabriel Cristóbal, Saúl Blanco, Gloria Bueno, 2020-05-28 High resolution images of phytoplankton cells such as diatoms or desmids which are useful for monitoring water quality can now be provided by digital microscopes facilitating the automated analysis and identification of specimens Conventional approaches are based on optical microscopy however manual image analysis is impractical due to the huge diversity of this group of microalgae and its great morphological plasticity As such there is a need for automated recognition techniques for diagnostic tools e.g. environmental monitoring

networks early warning systems to improve the management of water resources and decision making processes Describing the entire workflow of a bioindicator system from capture analysis and identification to the determination of quality indices this book provides insights into the current state of the art in automatic identification systems in microscopy *Landscapes of Human Evolution* James Cole, John McNabb, Matt Grove, Rob Hosfield, 2020-02-13 Fourteen papers are presented here in honour of John Gowlett John has a wide range of research interests primarily focused on the human genus Homo and is a world leader in understanding the cognitive and behavioural preconditions necessary for the emergence of complex behaviours such as language and art

ECMLG 2017 13th European Conference on Management, Leadership and Governance Martin Rich, 2017-12-11 These Proceedings represent the work of contributors to the 13th European Conference on Management Leadership and Governance ECMLG 2017 hosted this year by the Cass Business School City University of London on 11-12 December 2017 The Conference Chair is Dr Martin Rich The conference will be opened with a keynote address by Dr Helen Rothberg from Marist College Poughkeepsie USA with a speech entitled Everything I Know about Leadership I Learned as a Bartender On the second day the keynote will be delivered by Dr Amanda Goodall from City University of London on the topic of Why we need core business experts as leaders ECMLG is a well established platform for individuals to present their research findings display their work in progress and discuss conceptual advances in many different branches of Management Leadership and Governance At the same time it provides an important opportunity for members of the community to come together with peers share knowledge and exchange ideas With an initial submission of 160 abstracts after the double blind peer review process there are 61 academic papers 8 PhD Papers and 2 Work in Progress papers in these Conference Proceedings These papers reflect the truly global nature of research in the area with contributions from Australia Austria Belgium Brazil Canada Czech Republic Finland Germany Hungary Iran Ireland Israel Kazakhstan Kenya Lithuania Malaysia

Freshwater Fisheries Ecology John F. Craig, 2015-11-09 Inland fisheries are vital for the livelihoods and food resources of humans worldwide but their importance is underestimated probably because large numbers of small local operators are involved Freshwater Fisheries Ecology defines what we have globally what we are going to lose and mitigate for and what given the right tools we can save To estimate potential production the dynamics of freshwater ecosystems rivers lakes and estuaries need to be understood These dynamics are diverse as are the earth's freshwater fisheries resources from boreal to tropical regions and these influence how fisheries are both utilized and abused Three main types of fisheries are illustrated within the book artisanal commercial and recreational and the tools which have evolved for fisheries governance and management including assessment methods are described The book also covers in detail fisheries development providing information on improving fisheries through environmental and habitat evaluation enhancement and rehabilitation aquaculture genetically modified fishes and sustainability The book thoroughly reviews the negative impacts on fisheries including excessive harvesting climate change toxicology impoundments barriers and

abstractions non native species and eutrophication Finally key areas of future research are outlined Freshwater Fisheries Ecology is truly a landmark publication containing contributions from over 100 leading experts and supported by the Fisheries Society of the British Isles The global approach makes this book essential reading for fish biologists fisheries scientists and ecologists and upper level students in these disciplines Libraries in all universities and research establishments where biological and fisheries sciences are studied and taught should have multiple copies of this hugely valuable resource About the Editor John Craig is Editor in Chief of the Journal of Fish Biology and has an enormous range of expertise and a wealth of knowledge of freshwater fishes and their ecology having studied them around the globe including in Asia North America Africa the Middle East and Europe His particular interests have been in population dynamics and life history strategies He is a Fellow of the Linnean Society of London and the Royal Society of Biology Ecological Informatics Friedrich Recknagel, William K. Michener, 2017-09-21 This book introduces readers to ecological informatics as an emerging discipline that takes into account the data intensive nature of ecology the valuable information to be found in ecological data and the need to communicate results and inform decisions including those related to research conservation and resource management At its core ecological informatics combines developments in information technology and ecological theory with applications that facilitate ecological research and the dissemination of results to scientists and the public Its conceptual framework links ecological entities genomes organisms populations communities ecosystems landscapes with data management analysis and synthesis and communicates new findings to inform decisions by following the course of a loop In comparison to the 2nd edition published in 2006 the 3rd edition of Ecological Informatics has been completely restructured on the basis of the generic conceptual framework provided in Figure 1 It reflects the significant advances in data management analysis and synthesis that have been made over the past 10 years including new remote and in situ sensing techniques the emergence of ecological and environmental observatories novel evolutionary computations for knowledge discovery and forecasting and new approaches to communicating results and informing decisions **Historical Dictionary of South Africa** Christopher Saunders, Peter Limb, 2020-12-15 As the most influential and powerful country on the entire continent of Africa an understanding of South Africa's past and its present trends is crucial in appreciating where South Africans are going to and from where they have come South Africa changed dramatically in 1994 when apartheid was dismantled and it became a democratic state Since 2000 when the previous edition appeared further big changes occurred with the rise of new political leaders and of a new black middle class There were also serious problems in governance in public health and the economy but with a remarkable popular resilience too This third edition of Historical Dictionary of South Africa contains a chronology an introduction and an extensive bibliography The dictionary section has more than 600 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about

South Africa **The 2015 Regional Forecast and Urban Development Patterns** Sonny Conder,1964 **Earth's Oldest Rocks** Martin J. Van Kranendonk,Vickie Bennett,Elis Hoffmann,2018-09-26 Earth's Oldest Rocks Second Edition is the only single reference source for geological research of early Earth This new edition is an up to date collection of scientific articles on all aspects of the early history of the Earth from planetary accretion at 4 567 billion years ago Ga to the onset of modern style plate tectonics at 3 2 Ga Since the first edition was published significant new advances have been made in our understanding of events and processes on early Earth that correspond with new advances in technology The book includes contributions from over 100 authors all of whom are experts in their respective fields The research in this reference concentrates on what is directly gleaned from the existing rock record to understand how our planet formed and evolved during the planetary accretion phase formation of the first crust the changing dynamics of the mantle and style of tectonics life's foothold and early development and mineral deposits It is an ideal resource for academics students and the general public alike Advances in early Earth research since 2007 based primarily on evidence gleaned directly from the rock record More than 50% of the chapters in this edition are new and the rest of the chapters are revised from the first edition with more than 700 pages of new material Comprehensive reviews of areas of ancient lithosphere from all over the world and of crust forming processes New chapters on early solar system materials composition of the ancient atmosphere hydrosphere and overviews of the oldest evidence of life on Earth and modeling of early Earth tectonics *Colonial Survey and Native Landscapes in Rural South Africa, 1850 - 1913* Lindsay F. Braun,2014-10-16 In *Colonial Survey and Native Landscapes in Rural South Africa 1850 1913* Lindsay Frederick Braun explores the technical processes and struggles surrounding the creation and maintenance of boundaries and spaces in South Africa in the nineteenth and early twentieth centuries The precision of surveyors and other colonial technicians lent these enterprises an illusion of irreproachable objectivity and authority even though the reality was far messier Using a wide range of archival and printed materials from survey departments repositories and libraries the author presents two distinct episodes of struggle over lands and livelihoods one from the Eastern Cape and one from the former northern Transvaal These cases expose the contingencies contests and negotiations that fundamentally shaped these changing South African landscapes **Seismic Characterization of Carbonate Platforms and Reservoirs** J. Hendry,P. Burgess,D. Hunt,X. Janson,V. Zampetti,2021-08-17 Modern seismic data have become an essential toolkit for studying carbonate platforms and reservoirs in impressive detail Whilst driven primarily by oil and gas exploration and development data sharing and collaboration are delivering fundamental geological knowledge on carbonate systems revealing platform geomorphologies and how their evolution on millennial time scales as well as kilometric length scales was forced by long term eustatic oceanographic or tectonic factors Quantitative interrogation of modern seismic attributes in carbonate reservoirs permits flow units and barriers arising from depositional and diagenetic processes to be imaged and extrapolated between wells This volume reviews the variety of carbonate platform and reservoir

characteristics that can be interpreted from modern seismic data illustrating the benefits of creative interaction between geophysical and carbonate geological experts at all stages of a seismic campaign Papers cover carbonate exploration including the uniquely challenging South Atlantic pre salt reservoirs seismic modelling of carbonates and seismic indicators of fluid flow and diagenesis **Mintirho ya Vulavula** Jabulisile Mhlambi, Sandile Ngidi, 2021-04-19 Mintirho ya Vulavula Arts National Identities and Democracy examines the role of arts and culture in development and specifically its value in consolidating our nascent democracy and in facilitating the transformation of South African society Contributors to this edited volume interrogate the role of arts culture and heritage from a transdisciplinary perspective enriched by the cross generational perspectives offered by young and older artists cultural practitioners activists and scholars Authors also offer some policy recommendations on how the contribution of arts and culture to social cohesion and nation building can be enhanced
