Emerging Technologies in Non-Destructive Testing V Alkiviadis S. Paipetis, Theodore E. Matikas, Dimitrios G. Aggelis, Danny Van Hemelrijck, 2012-01-26 Non destructive evaluation NDE methods have dominated most of the fields of applied research and technology over the last twenty years These techniques provide information on the functional efficiency of materials and structures without causing any structural impact on the structure itself Their use enables the monitoring of the structural integrity the structural condition as well as the service induced degradation of materials and structures during their service life In this respect they address a vast field of applications ranging from the aerospace and automotive industry to civil engineering structures and material quality control This volume comprises scientific papers presented during the Fifth Conference on Emerging Technologies in Non Destructive Testing Ioannina Greece 19-21 September 2011 A broad spectrum of related research was presented during the course of the conference including optical acoustic thermal electrical and electromagnetic methods together with imaging tomographic and signal processing techniques Special attention was given to NDE for Civil Engineering Structures and for the first time in the conference series a multiple session on NDE for the protection of cultural heritage was organized Emerging Technologies

in Non Destructive Testing V contains contributions by experts in this field from 22 different countries worldwide Reflecting the state of the art in Non Destructive Evaluation the book will prove to be a valuable companion to students engineers and industrial partners who are active in the field of non destructive evaluation and testing This volume will also provide students and researchers with insight into the focal points of contemporary research efforts in the field of non destructive evaluation

The Forgotten Teboho Pitso, 2023-05-20 The book focuses on uncovering lies and myths that sustain the colonial and European supremacist agendas and restores Africa's role in originating civilisation science mathematics philosophy spirituality and Christianity It forms part of questioning the deification of Global North episteme as a universal theory The volume thus contributes to Southern theorisation that draws from multiple practices and lived experiences of those from the austral geographic location Global South whose understanding of time is secular Such theorisation challenges and denounces the imperialist gaze on contemporary science as the sole spectacle and arbiter of its significance in society The Global South episteme whose sources are indigenous practices collective knowing and collective experiences has all the right to claim its stake in hallowed spaces of knowledge production

Advances in Computer, Information, and Systems Sciences, and Engineering Khaled Elleithy, Tarek Sobh, Ausif Mahmood, Magued Iskander, Mohammad A. Karim, 2007-06-06 The conference proceedings of International Conference on Industrial Electronics Technology not only the reviewing submissions and registration processes but also the actual conference Conference participants authors presenters and attendees only needed an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground breaking conference The on line structure of this high quality event allowed academic professionals and industry participants to contribute work and attend world class technical presentations based on rigorously refereed submissions live without the need for investing significant travel funds or time out of the office Suffice to say that CISSE received submissions from more than 50 countries for whose researchers this opportunity presented a much more affordable dynamic and well planned event to attend and submit their work to versus a classic on the ground conference The CISSE conference audio room provided superb audio even over low speed internet connections the ability to display PowerPoint presentations and cross platform compatibility the conferencing software runs on Windows Mac and any other operating system that supports Java In addition the conferencing system allowed for an unlimited number of participants which in turn granted CISSE the opportunity to allow all participants to attend all presentations as opposed to limiting the number of available seats for each session The implemented conferencing technology starting with the submission review system and ending with the online conferencing capability allowed CISSE to conduct a very high quality fulfilling event for all participants See www.cissee2005.org sections IETA TENE EIAE
