Valley of the Shadows & Surrender Rochelle L. Holt, 2004-09-14 *Valley of the Shadows* is a duet of two novels concerning the fickleness of pursuing fame in a society that measures success by media adoration In the title novel Marya Brooks an experienced poet in her seventies decides to practice amateur obeah voodoo to cast negative spells on her favorite top five poets the thriving competition Only when each poet begins to die mysteriously does she develop guilt for her actions Her former student H D

believes her research can dispute Marya's fallacious theories. Also set in the southeast, primarily on both coasts of southern Florida, Rory is bitter when she receives no response from Maggie but notices that lines of her poems begin appearing in the singer's songs. In both novels, all characters eventually give up illusions and false patterns of behavior in these chilling stories regarding the relevance of mass recognition and inordinate acclaim and adulation. They are novels of the future in accord with Anais Nin's tenets that commingle art with moral issues for compelling psychological literature.

The Reality of the Unreal Judit Borbély, 2005

In the nineteenth century, the great cities underwent the most conspicuous transformation. The beauties and the dark side of urban existence soon came to be one of the central issues in contemporary literature and art. In *The Reality of the Unreal*, the works of four great English writers of the time are analyzed with the focus on their representation of the city. Through the concrete image of London and Paris around the turn of the century as well as through the metaphorical role of the city as a concept, this book, a new volume in the *Philosophiae Doctores* series, provides differing views about the age as seen by H. G. Wells, George Gissing, Joseph Conrad, and Henry James. The book's analysis arrives at the complex image of civilization at the end of the nineteenth century.

Nineteenth-Century Fiction and the Production of Bloomsbury Matthew Ingleby, 2018-11-05

This study explores the role of fiction in the social production of the West Central district of London in the nineteenth century. It tells a new history of the novel from a local geographical perspective, tracing developments in the form as it engaged with Bloomsbury in the period it emerged as the city's dominant literary zone. A neighbourhood that was subject simultaneously to socio-economic decline and cultural ascent, fiction set in Bloomsbury is shown to have reconceived the area's marginality as potential autonomy. Drawing on sociological theory, this book critically historicizes Bloomsbury's trajectory to show that its association with the intellectual fraction known as the Bloomsbury Group at the beginning of the twentieth century was symptomatic rather than exceptional. From the 1820s onwards, writers positioned themselves socially within the metropolitan geography they projected through their fiction. As Bloomsbury became increasingly identified with the cultural capital of writers rather than the economic capital of established wealth, writers subtly affiliated themselves with the area, and the figure of the writer and Bloomsbury became symbolically conflated.

This seminal piece of literature would make for a worthy addition to any bookshelf and is a must-have for fans and collectors of Wharton's work. Edith Wharton (1862-1937) was an American novelist and short story writer who was awarded the Pulitzer Prize and
