An Operetta in Profile Czeika,1887 **Profile Pieces** Sue Joseph,Richard Lance Keeble,2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated

individuals The volume looks at the profile's historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma

Profiling Shakespeare Marjorie Garber, 2008-03-25 The title of this collection *Profiling Shakespeare* is meant strongly in its double sense These essays show the outline of a

Shakespeare rather different from the man sought by biographers from his time to our own They also show the effects the ephemera the clues and cues welcome and unwelcome out of which Shakespeare's admirers and dedicated scholars have pieced together a vision of the playwright whether as sage psychologist lover theatrical entrepreneur or moral authority This collection brings together classic pieces hard to find chapters and two new essays Here Garber has produced a book at once serious and highly readable ranging broadly across time periods early modern to postmodern and touching upon both high and popular culture Contents Preface 1 Shakespeare's Ghost Writers 2 Hamlet Giving Up the Ghost 3 Macbeth The Male Medusa 4 Shakespeare as Fetish 5 Character Assassination 6 Out of Joint 7 Roman Numerals 8 Second Best Bed 9 Shakespeare's Dogs 10 Shakespeare's Laundry List 11 Shakespeare's Faces 12 MacGuffin Shakespeare 13 Fatal Cleopatra 14 What Did Shakespeare Invent 15 Bartlett's Familiar Shakespeare **Practice and Profile** Johan Hegeman, Margaret Edgell, Henk Jochemsen, 2011-02-28 Too many students are disappointed They want to make a difference in their chosen professions They are inspired by successful visionaries but they have little idea how to follow in their oversized footsteps Their colleges and universities promise more professional development than they can possibly deliver especially in terms of moral development for the professions Experts coming from a range of perspectives in higher education agree that moral formation for the professions must increasingly take place in higher education Tragically the recent evolution of teaching has stripped educators of much of the rationale for moral formation The recent record of moral lapses by managers testifies to this crisis of moral education The authors call for a revival of moral formation in higher education for the professions They supply the needed resources to redesign classic as well as cutting edge teaching and learning toward practical moral education in the professions This book is carefully designed to apply traditional Christian principles appropriately to evolving professional practices The authors strategies address the problems surrounding calling vocation and the growing need for virtue training in the professions In particular the authors provide clear direction for how to meet the need for professional profiles that meet the standards of the marketplace Practice and Profile provides the reader with a tested and proven model of faith formation appropriate to the professions It also goes into specific useful detail as to how the model mobilizes learning in classroom and professional settings It aids institutions of higher learning in their struggle with demands for new learning environments and new moral competencies Foremost it gives students a grasp of how to become dedicated professionals who make a difference
