a whole helps practitioners to redefine and recreate their daily practice in ways that are healthier for both patients and practitioners The books provide a welcome antidote to demoralisation and burn out amongst practitioners reversing cynicism and reviving our feeling of pride in and our understanding of health practice By observing practice life through different lenses they encourage the development of efficiency effectiveness and above all satisfaction The fifth book in this series The Integrated Practitioner Food for Thought written for readers who prefer a more academic and reflective understanding of the themes of books 1 4
